MANAGEMENT AND OPERATIONS MEMORANDUM		
MSDE-FNSS	NUMBER 012 (3/05)	
FROM	Robin Ziegler, Chief, School and Community Nutrition Programs Branch	
APPLIES TO	All School Food Authorities	
SUBJECT	Competitive Foods and Foods of Minimal Nutritional Value	
Replaces	Related Policy	Signature
MOM 012 (2/99)	MOM 015	

I. Purpose and Scope

It is the purpose of this Management and Operations Memorandum to promote a healthy school environment by defining the scope of authority of the School Food Authority (SFA) regarding foods and beverages available to students during the school day and to outline the federal and State regulations which apply to serving these foods and beverages in schools and facilities that participate in the School Breakfast Program and the National School Lunch Program. These policies and procedures establish minimum requirements and provide guidance for SFAs electing to set policies which go beyond those contained in this memorandum.

In 2001, *The Surgeon General’s Call to Action to Prevent and Decrease Overweight and Obesity* established overweight and obesity as an epidemic in the United States and identified priorities for action to help Americans make healthy lifestyle changes for themselves and their families. Because children spend a large portion of their time in school, schools were identified as a key setting for offering information and programs to promote a healthy lifestyle.

Schools play a powerful role in influencing student behavior. Dietary habits that contribute to student learning and lifelong health are influenced at school. School Meals programs, nutrition education, and physical education programs help students build a foundation for a healthy lifestyle. The school environment must strengthen this foundation by encouraging children to make healthy choices. The procedures outlined in this memorandum are intended to promote a variety of foods in appropriate portions consistent with the *Dietary Guidelines for Americans*. The goal is to educate by example and encourage students to take responsibility for making the best choices for their individual lifestyles and activity levels.

II. Procedures

1. The sale of all items on the list of foods of minimal nutritional value as outlined in Attachment A is prohibited from 12:01 a.m. until the end of the last lunch period. School Food Authorities are strongly encouraged to extend this restriction on the sale of these foods until the end of the standard school day.
2. Each SFA shall establish a nutrition policy, a critical component of the federally mandated wellness policy, for implementation no later than the first day of the 2006-07 school year. SFAs must provide a copy of the nutrition policy to the Maryland State Department of Education (MSDE) by January 31, 2006, and report subsequent changes. The policy will apply to all foods and beverages made available to students from 12:01 a.m. until the end of the standard school day, including those sold à la carte, in vending machines and school stores, and for fundraisers.
3. Reimbursable meals in all schools must meet nutrition standards established by the U.S. Department of Agriculture (USDA). The Maryland State Department of Education encourages SFAs to take the following guidelines into consideration when developing nutrition policies. Components of reimbursable meals that are sold à la carte are not subject to these guidelines.

Foods

Main course food items offered in elementary, middle, and high schools as an alternative to the reimbursable meal should be offered in reasonable portion sizes that are consistent with guidance provided by the USDA for Child Nutrition Programs and that take into consideration the percentage of total calories from both fat and saturated fat. This guidance applies to foods typically sold à la carte, including items such as deluxe pizzas, salads, sandwiches, and yogurt.

In elementary and middle schools, all other food sold, including packaged snacks, should be offered only in single-serving portions. The unit sold, regardless of the number of portions in the package, should contain:

- No more than 9 grams of total fat, excluding packaged nuts and seeds.
- No more than 2 grams of saturated fat.
- No more than 15 grams of sugar, excluding dried fruit with no added sugar.

Beverages

The sale of beverages in all schools during the standard school day is limited to the following:

- Water.
 - Non-carbonated, flavored water with fewer than 20 calories per serving.
 - Unflavored milk or soy milk.
 - Flavored milk or soy milk (no more than 30 grams of total sugar per 8 ounce serving).
 - 100% fruit/vegetable juice, not to exceed 12 ounces.
 - Fruit/vegetable juice beverages with at least 10% fruit/vegetable juice and 100% vitamin C, not to exceed 12 ounces.
 - Isotonic beverages, not to exceed 16 ounces.
4. In high schools, SFA nutrition and wellness policies should reflect the importance of the fat and sugar content of foods and beverages; appropriate portion sizes; student healthy decision-making on food and beverage choice; the role of nutrition education in the school curriculum, including education about abnormal eating behaviors and the importance of physical activity; and developing and promoting opportunities for physical activity before, during and after the school day. SFAs are encouraged to consider the elementary and middle school guidelines for fat and sugar content when developing their high school nutrition and wellness policies.
 5. SFAs are encouraged to form a nutrition integrity team or use an existing local school health council (COMAR 13A.05.05.13), school health advisory board, or a similarly constituted body that includes representatives from school administration, school health, education, physical education, and school food and nutrition services. This team will support the practice of healthy eating, nutrition education, and physical activity in the school environment.
 6. SFAs may implement policies that go beyond the federal and State policies contained in this memorandum.

III. Definitions and Regulations (see CFR 210.11, CFR 220.12)

Competitive Food Services

State Agencies and SFAs shall establish such rules or regulations as are necessary to control the sale of foods other than those available through the School Meals Programs. All income from the sale of competitive foods must accrue to the benefit of the nonprofit school food service or the school or student organizations approved by the school. State agencies and SFAs may impose additional restrictions on the sale of and income from all foods sold at any time throughout schools participating in the School Breakfast Program and the National School Lunch Program.

Foods of Minimal Nutritional Value

Rules and regulations established by State Agencies and SFAs shall prohibit the sale of foods of minimal nutritional value as identified by the Secretary of the USDA and federal regulations governing the National School Lunch Program and School Breakfast Program. These specific food items include:

1. Soda water (includes soda).
2. Water ice.
3. Chewing gum.
4. Certain candies including hard candy, jellies and gums, marshmallow candies, fondant, licorice, and spun candy.
5. Candy-coated popcorn.

A more detailed list is included with this memorandum as Attachment A.

The USDA approves many foods as *exemptions* to the list of foods of minimal nutritional value. Manufacturers may submit a request to the USDA for an exemption from this classification. If the USDA approves the request, the food will be added to the list of exemptions. (See Attachment B.)

Attachments

Categories of Foods of Minimal Nutritional Value

- (1) Soda water - As defined by 21 CFR 165.175 Food and Drug Administration Regulations, except no product shall be excluded from this definition because it contains artificial sweeteners or discrete nutrients added to the food such as vitamins, minerals, and proteins.
- (2) Water ices - As defined by 21 CFR 135.160 Food and Drug Administration Regulations except that water ices which contain fruit or fruit juices are not included in this definition.
- (3) Chewing gum - Flavored products from natural or synthetic gums and other ingredients which form an insoluble mass for chewing.
- (4) Certain candies - Processed foods made predominantly from sweeteners or artificial sweeteners with a variety of minor ingredients which characterize the following types:
 - (a) Hard candy - A product made predominantly from sugar (sucrose) and corn syrup which may be flavored and colored, is characterized by a hard, brittle texture, and includes such items as sour balls, fruit balls, candy sticks, lollipops, starlight mints, after dinner mints, sugar wafers, rock candy, cinnamon candies, breath mints, jaw breakers and cough drops.
 - (b) Jellies and gums - A mixture of carbohydrates which are combined to form a stable gelatinous system of jelly-like character, and are generally flavored and colored, and include gum drops, jelly beans, jellied and fruit-flavored slices.
 - (c) Marshmallow candies - An aerated confection composed of sugar, corn syrup, invert sugar, 20% water and gelatin or egg white to which flavors and colors may be added.
 - (d) Fondant - A product consisting of microscopic-sized sugar crystals which are separated by a thin film of sugar and/or invert sugar in solution such as candy corn, soft mints.
 - (e) Licorice - A product made predominantly from sugar and corn syrup which is flavored with an extract made from the licorice root.
 - (f) Spun candy - A product that is made from sugar that has been boiled at high temperature and spun at a high speed in a special machine.
 - (g) Candy coated popcorn - Popcorn which is coated with a mixture made predominantly from sugar and corn syrup.

These categories of foods identified would provide less than five percent of the United States Recommended Dietary Allowance (USRDA) for each of eight specified nutrients (proteins, vitamin A, ascorbic acid, niacin, riboflavin, thiamin, calcium and iron) per 100 calories and less than five percent of the USRDA for each of the eight specified nutrients per serving. In the case

MOM Number 012**Attachment A**

of artificially sweetened flour, only the per serving measure applies. The identified categories of foods of minimal nutritional value will be updated every May 1 and November 1, if changes to foods listed in Attachment B have been made by the USDA.
