## Introduction

Annually, the Maryland State Department of Education (MSDE) collects information on students with disabilities (ages 3-21) who reside in the State of Maryland. Until 2003 this child count was taken on December 1. Beginning in 2003 it is taken the last Friday of October. In order to be included in this count, the child must be identified as having a disability and receiving active special education services on the last Friday of October.

The Special Services Information System (SSIS) consists of two separate data collections. The first is the last Friday of October Census, a count of all students receiving special education services on the last Friday of October of every year. Data on students who have exited special education are collected on June 30 of every year.

The SSIS database is used to compile information on Maryland students with disabilities. MSDE uses the SSIS database as:

- a source of information to meet planning, monitoring, and accounting responsibilities for special education;
- a recording and reporting tool for decisions made by the public agencies; and
- an instrument for federal reporting requirements.\*
