

## Maryland State Department of Education Division of Special Education/Early Intervention Services Secure Web Client Access and Submission Procedures

The Maryland State Department of Education (MSDE, Division of Special Education/Early Intervention Services (DSE/EIS) provides grantees with access to an account on the MSDE Secure Web Client for each grant program. This access enables the secure outbound submission of the grantee's grant related documents at any time of day, 365 days per year. Access is also provided to an inbound folder to receive grant documents disseminated by the grant program. **Grantees must submit all required submissions, including pdf-formatted grant application, reporting, and amendment request documents, through the MSDE Secure Web Client.**

Grantees must upload documents to the "ToMSDE" folder and will receive documents sent by the MSDE, DSE/EIS in the "FromMSDE" folder. After a document is uploaded to the MSDE Secure Web Client, the file name will be displayed with the time-stamp of the upload. **The MSDE, DSE/EIS recommends that grantees save a screen shot of this information as proof of submission.** The MSDE, DSE/EIS does not routinely search the MSDE Secure Web Client Server for submitted documents. **After uploading documents, grantees must notify their designated fiscal grants liaison of the upload by email, specifying the names of the uploaded documents, to ensure timely processing.**

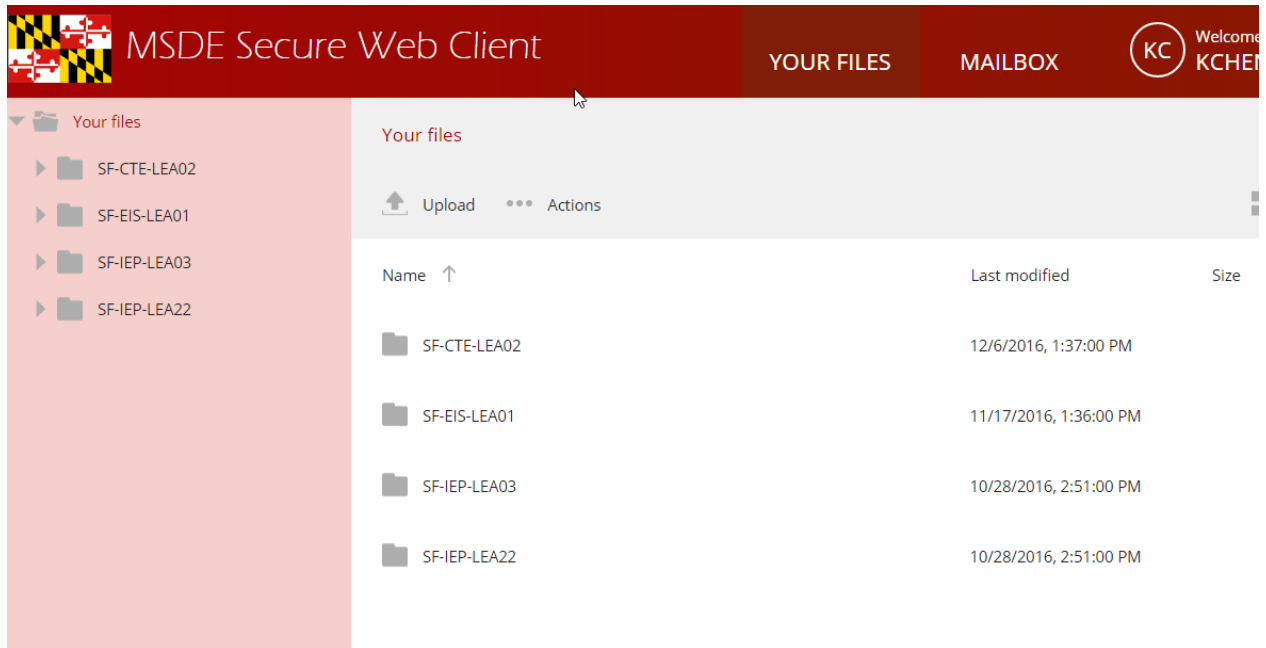

The MSDE Secure Web Client is intended for file transfer only; not file storage. **Files sent by the MSDE, DSE/EIS to grantees are subject to deletion from each account's inbound directory 90 days from the date of posting.** Therefore, the MSDE, DSE/EIS recommends that documents sent to the grantees be immediately downloaded and saved to local storage facilities.

The MSDE, DSE/EIS has designated each program director/project manager for each grant program as a Grants Submission Coordinator (GSC). Each GSC has been given access to the grant program files on the MSDE Secure Web Client and can log in at <https://sst.msde.maryland.gov> using his/her email address registered with the grant program and a provided password. Separate access is provided for each individual user (No more shared accounts). To change the designated GSC or to request access for additional personnel, the GSC must contact the designated fiscal grants liaison. **The GSC has ongoing responsibility for ensuring that only authorized individuals have access to the MSDE Secure Web Client and must immediately notify the designated fiscal grants liaison by email to deactivate access for, as an example, an employee who leaves the employ of the grantee.**

Upon the initial log on, users will be required to create a new password. Usernames and passwords are case sensitive. Passwords will expire after 90 days and must contain at least:

- 6 characters;
- One alpha character
- One numeric character; and
- One special character

Pictured below is the screen that users will see after successfully logging on to the MSDE Secure Web Client. Users will see the Shared Folders (with "SF" prefix) to which they have been granted access.

To upload files to those folders:

1. Double click on the folder to which you want to upload a file.
2. Either drag and drop a file into the web browser or click the upload button.

### File Naming Convention

**Grantees are responsible for ensuring that each submission is uploaded separately and is labeled according to the following specifications. Submissions that do not comply with these requirements will not be acknowledged or be considered to have been filed:**
