**PURPOSE:**

To provide information to the State Board regarding Maryland's Grant Award from the Federal Striving Readers' Comprehensive Literacy (SRCL) Grant.

**BACKGROUND/HISTORICAL PERSPECTIVE:**

Maryland has been awarded \$45 million over three years. Of the 16 SRCL grants awarded by the US Department of Education in 2017, Maryland received the third highest award.

Maryland's award will advance literacy skills for all children from birth through grade 12 and will provide an alignment of state literacy plans from birth through grade 12. Maryland's plan places special emphasis on disadvantaged children, including children living in poverty, English learners, and children with disabilities.

Through the development of local comprehensive literacy plans and needs assessments, local school systems can strategically advance literacy achievement for all students.
