**REPORTS TO THE STATE BOARD FOR DISCUSSION AND/OR ACTION**

- **Task Force on Student Discipline Regulations Report and Recommendations**
  (Presenter: Mary Gable, Assistant State Superintendent, Division of Student, Family, and School Support; Walter Sallee, Director of Student Services and Strategic Planning Branch)

Dr. Hartings provided opening remarks and background regarding the State Board’s Task Force on Student Discipline Regulations (Task Force), which was convened to explore the impact and implementation of reforms in school discipline policy adopted by the State Board in 2014. The Task Force was chaired by Dr. Vermelle Greene. The Task Force membership reflected a broad and diverse group of 15 state organization partners representing individuals (students, educators, administrators, parents, practitioners, policy makers, and safety specialists) the State Board believed to be most familiar with the implementation and impact of the discipline policy(ies) in Maryland’s public schools. This included representatives from the following: Maryland State Department of Education; Maryland State Education Association; Maryland Association of School Resource Officers; Maryland Association of Elementary School Principals; Maryland Association of Secondary School Principals; Public School Superintendents Association of Maryland; Maryland Association of Student Councils; Maryland Association of Boards of Education; Office of the Maryland State Attorney General; and the Maryland Parent Teacher Association; as well as two at-large members selected by the Chair.

Ms. Gable and Mr. Sallee provided brief legal and historical context regarding the state’s role and efforts related to student discipline policy and practices. They also provided an overview of the work of the Task Force and presented the final report and recommendations. The Task Force held six meetings from January through June 2019, gathering information and input from stakeholders and subject matter experts through presentations, panel discussions, and the review of relevant literature and reports. The information gathered informed the work of the Task Force in developing the proposed recommendations presented in the report for consideration. Recommendations addressed two areas: 1) MSDE Regulations and Guidelines and 2) Best Practices.

Dr. Hartings asked about the language regarding “chronic vs. extreme disruption of the educational process” and noted that he did not recall this being cited in appeals that have come before the State Board, and inquired about how often this may occur. Ms. Gable said she did not have the actual data available but said that it is a broad category under which other offenses may be grouped.
State Board members also inquired about how the department works with other state agencies and partners to expand supports and coordinate services; the need and process for identifying students with childhood trauma; training in dealing with adverse childhood experiences (ACES) and cultural competence; data on links between learning and student behavior, particularly among those with learning difficulties and special needs;

Additional information was requested on progressive discipline action and guidelines. President Sumpter recommended sharing the report across agencies and with local boards and school systems.

**ACTION:** None. *For information and discussion only.*

- **2019 Maryland Comprehensive Assessment Program PARCC English Language Arts and Math Results**
  (Dr. Dara Shaw, Executive Director, Office of Research; Chandra Haislet, Director of Accountability and Data Systems)

Dr. Shaw and Ms. Haislet provided an overview of the results from the 2019 test administration of the MCAP PARCC ELA and PARCC Math. Dr. Shaw presented the State and local level results, as well as student group achievement by race/ethnicity and service groups.

Mr. Crawford suggested addressing the findings as a business problem – identify the problem(s) and where they exist and determine what is or should be done to address them. Dr. Steiner shared that the Kirwan Commission (funding formula) addresses this, and suggested a future State Board work session to get updates on the status of the Commission’s work to date. Dr. Steiner also inquired about the correlation between performance data and demographics. Dr. Shaw said this data will be presented at a future meeting.

Additional discussion included the availability of data related to charter schools and a recommendation for a future presentation on national research examining the achievement gap. State Board members also expressed concerns regarding repeat test takers and what the department is doing regarding the Bridge program and accountability.

Ms. Haislet shared information about the report card website updates.

State Board members discussed the importance of having some type of waiver process to aid students who may want to graduate early or who run out of (or have limited) options.
Dr. Williamson also shared information on the Maryland Mathematics Alignment Project (MMAP). The goal of the project is to increase the number of students who place directly into and successfully complete a college-level, credit bearing mathematics course upon enrolling in a Maryland Institution of Higher Education within two years of their graduation from a Maryland public school. Dr. Williamson provided information on the MMAP’s area of work and the issues to be addressed, which included: curriculum standards, messaging/advising/counseling, instructional practices, policies/procedures, placement practices, and methods for dealing with anticipated risks. She also addressed the opportunities and risks moving forward, and provided an overview of the leadership team and Task Force membership.

Dr. Williamson asked for a State Board representative to serve on the MMAP Task Force. Dr. Greene volunteered to serve in this role.

(Susan Spinnotto, Director of Instructional Programs)

Ms. Spinnotto presented an overview of the work of the Network for Equity and Excellence in Education (NE3) and the resulting Guide to Equity and Excellence in Maryland (Guide), which provides a framework aligned with the new Educational Equity regulations. During its June 25, 2019 meeting, the State Board granted permission to publish the new COMAR 13A.01.06 Educational Equity. One of the major requirements for the MSDE was to “develop a guide for implementation of equity initiatives at the local level, which includes sample components of high-quality policies, guidance around how to apply an equity lenses within priority birth-age 21 focus areas, as defined by the Department...”
With equitable outcomes as the goal, the Guide provides actions at the local school system level and school level through an equity lens in the following focus areas: academic achievement and growth; leadership and human capital; school climate and culture; and educator and staff capacity. The Guide is MSDE’s first step in establishing systems of structure and support for school systems, students, teachers, and other stakeholders that ensure educational equity and excellence, as required by the new regulations.

Dr. Greene requested adding gender as a category under the actions related to how to apply the equity lens.
