SUBJECT: Implementation of 2015 Amendments to Maryland Charter Law Regarding Eligibility for Flexibility Provisions

PURPOSE:

The purpose of this agenda item is to present for approval criteria by which a public charter school shall be assessed and deemed eligible for operational flexibility per Maryland's Charter School Law, § 9-101 *et seq* of the Education Article, Annotated Code of Maryland. The criteria and recommendations for implementation are included in the attached guidance document (Attachment 1).

BACKGROUND/OVERVIEW:

The Maryland Public Charter School Program was enacted in 2003 and has grown from serving 3,363 students during the 2005-2006 school year, the first year in which public charter schools were operational in accordance with the law, to serving over 19,000 students during the 2015-2016 school year. The number of public charter schools has grown from 15 public charter schools during the 2005-2006 school year to 49 public charter schools during the 2015-2016 school year.

In 2015, the Maryland General Assembly amended the Maryland Public Charter School Law. The amendments create additional operational flexibility for public charter schools that meet certain eligibility criteria in academic performance and fiscal management. The Maryland State Department of Education reviewed requirements in the law and sought input from stakeholders. The attached document includes the criteria and provides an overview of implementation for local school systems and charter schools.

EXECUTIVE SUMMARY:

The State Board of Education is charged with developing standards and criteria by which an eligible public charter school shall be assessed by the local board. Standards will include requiring evidence of sound fiscal management and student academic achievement. Public

charter schools determined eligible by local boards may seek approval for flexibility provisions listed in Education Article § 9-104.1.

Recommended criteria and standards address requirements of the law. Charter schools that have operated for at least five years will be able to request “eligibility.” To meet the eligibility standard for academic achievement, the public charter school must show that combined math and English/language arts performance on State assessments exceeds that of the local school system. In addition, the public charter school must demonstrate academic progress as determined by the State’s accountability system. The cohort graduation rate must exceed that of the local school system for all students, in the most recent year for which data is available.

The local board will also review implementation of special education services by the public charter school. The charter school must demonstrate that it has taken prompt and appropriate steps to address any shortcomings identified through monitoring activities.

The public charter school must demonstrate sound fiscal management. The local board will review audits and balance sheets to ensure any management findings were resolved by the subsequent audit. The local board will review the charter school’s request and render a decision about eligibility. The decision of the local board can be appealed to the Maryland State Board of Education.

The criteria and recommendations for implementation are included in the attached guidance document.

ACTION:

Request that the State Board of Education approve the proposed standards and criteria that local boards will use to determine eligibility.

DRAFT

Introduction

In the 2015 session of the Maryland General Assembly, several provisions were added to the charter school law (Annotated Code of Maryland, Education Article § 9-101 *et seq.*). One amendment creates a category of charter schools called “eligible charter schools.” An “eligible charter school” is a charter school that has operated for at least five years, and has a history of student academic achievement and sound fiscal management. (Md. Educ. Art. § 9-104.1)

The law directs the Maryland State Board of Education to create standards and criteria by which the local board of education will assess a charter school to determine if it is an “eligible charter school.” These schools are eligible to receive certain exemptions from local policies.

Maryland State Board of Education (Board) provides this guidance to local boards of education and public charter school operators in implementing this provision. (Md. Educ. Art. § 9-104.1)

Eligibility Provisions of § 9-104.1

Eligible Schools

The Maryland Charter Law (Md. Educ. Art. § 9-101, *et seq.*) directs the Maryland State Board of Education (Board) to determine measures by which a Maryland charter school meets “eligibility” to negotiate exemptions from certain policies of local school systems.

The law states in § 9-104.1 (a) that an “eligible public charter school” means a public charter school that has been in existence for at least 5 years and demonstrates to the public chartering authority a history of:

- (1) Sound fiscal management; and
- (2) Student achievement that exceeds the average in the local school system in which the public charter school is located on:
 - (i) Statewide assessments; and
 - (ii) Other measures developed by the State Board.”

Eligibility Criteria

The State Board has established the following standards and criteria to determine if a public charter school is an “eligible” charter school.

1. The charter school has been in operation at least 5 years, or is in its fifth year of operation.
2. The charter school has submitted an annual independent audit.
 - a. The auditor’s report offers unqualified opinions and any management points were resolved by the subsequent audit.
 - b. Statements of cash flow indicate good performance on short term liquidity measure.
3. The student achievement data shows that proficiency, as defined by the State Board, exceeds that of the local school system for the All Students group in the most recent

year for which data is available. “Exceeds” means exceed, by any amount, the combined proficiency in Reading and Math for all grades.

4. The charter school is in one of the top 2 of the 3 levels determined by the State’s indicator of progress.¹
5. For schools serving grades nine through twelve, the cohort graduation rate exceeds that of the local school system for the All Students group, in the most recent year for which data is available.
6. The charter school is not identified for comprehensive school support and improvement, or targeted support and improvement, nor as a Priority or Focus school under the State’s accountability system.
7. The charter school has no significant compliance issues in serving students with disabilities as reported by the local board.
 - a. The charter school has taken prompt and appropriate steps to address any shortcomings identified through monitoring activities.

Local Policy Exemptions for Eligible Public Charter Schools (§ 9-104.1 (e), (f),(g))

Pursuant to Education Article § 9-104.1, the law provides that the eligible charter school may be exempt from the following local school system policies, if both parties mutually agree:

§ 9-104.1 (e):

- 1) Textbook, instructional program, curriculum, professional development, and scheduling requirements;
- 2) A requirement to establish a school community council;
- 3) Except for Title I schools, a requirement to establish a school improvement plan;
- 4) Except for schools with a school activity fund, a requirement to provide school activity fund disclosure statements; and
- 5) Except for Prekindergarten classes, class size or staffing ratios.

The statute also provides that,

§9-104.1 (f):

A public chartering authority and an eligible public charter school may jointly develop and mutually agree to a communication process and supervision methodology that flows among the county board, the operator, and the administration of the eligible public charter school.

¹ The Every Student Succeeds Act requires the State to create a progress indicator that will place schools in at least 3 levels. The progress indicator will incorporate student growth and data for student groups. The State’s progress indicator will take into account that schools with overall excellent academic performance may have less evidence of growth. This component of the accountability plan will also apply to charter schools seeking “eligibility” under this provision.

The statute also provides that,

The exemptions listed above may be granted “if an eligible charter school and public chartering authority mutually agree to an alternative means by which the eligible charter school will satisfy the intent of the policies of the public chartering authority.” (§9-104.1 (e))

Provisions of § 904.1 Related to Staffing

§ 9-104.1 (g):

- 1) An eligible public charter school may not be assigned a principal without the written consent of the operator of the eligible public charter school.
- 2) (i) Staff members shall be assigned or transferred to an eligible public charter school if the staff member expresses in writing that the staff member wants to work in that eligible public charter school and the eligible public charter school requests in writing that the staff member be assigned or transferred to the eligible public charter school, provided there is an existing vacancy.
 - (ii) A transfer authorized under subparagraph (i) of this paragraph shall take place as designated by the agreement of the local bargaining unit in the local school system.

A charter school that has been deemed an eligible charter school by the local board can prevent the forced placement of a principal in the public charter school by the local board. Under the law, the local school system cannot assign a principal to an eligible charter school “without the written consent of the eligible charter school” (§ 9-104.1 (g)(1)). The authority to hire or fire a principal remains with the superintendent and local board. (Md. Educ. Art. § 4-103)

An eligible charter school has been given some limited autonomy over staffing decisions. If there is a teacher vacancy in an eligible charter school and a current teacher in the school system agrees to the placement, then the superintendent must approve that transfer. (§ 9-104.1 (g)(2)). In each local school system, the collective bargaining agreement may include provisions governing teacher or administrator placement and transfer. These provisions take precedence. (§ 9-104.1 (h)).

The concept of mutual consent in teacher and staff assignment should be honored to the extent possible in each local school system. Charter schools should be able to identify qualified candidates for teaching and other staff positions from within and from outside the school system.

Eligibility Implementation Process

Local school board authorizers conduct a full review of the public charter school every three, four or five years. The renewal processes in place include quantitative and qualitative data on academic achievement and climate, review of financial statements and audits, and site visits. During this process the charter school operator can request designation as an “eligible” charter school and request the exemptions provided for in the law (§ 9-104.1 (e) through (g)). Negotiated exemptions from local policy should be included in renewal contracts or as amendments to existing contracts.

The local school system may wish to set a different time frame for consideration of “eligibility” and any exemptions. This is at the discretion of the local school board. However, there should be an opportunity for charter schools to request eligibility at least once a year.

The local board will respond to the request of the charter school by reviewing academic achievement data and making a determination on the other eligibility criteria (page 2).

Annually, the local board will provide to MSDE, whether any public charter schools have requested to be determined “eligible”, decisions of the local board, data the board used to make its determination, and a description of any exemptions granted. MSDE will maintain records of this process, so the outcomes can be shared with all public charter schools, local school systems, the public, and the Maryland State Board of Education.

If the local board denies the charter school application to be determined “eligible”, the charter school can appeal this decision to the State Board of Education (§ 9-104.1 (d)).

A local school board should not read these provisions (§ 9-104.1(a) through (f)) as intending that a charter school that is yet to open should not have control over textbooks, instructional program, curriculum, professional development, and scheduling requirements (§ 9-104.1 (e) through (g)). Neither should the local school system withdraw control over these aspects of operations, if an operating charter school does not meet the criteria listed here.

Other Considerations

The amendments to the charter law also include a provision expressly allowing any public charter school to seek a waiver “from a county board from policies that are policies of the county board; and the State Board for policies that are polices of the State Board.” (§ 9-106 (b)(1)). The law does not set any limitation on when a charter school can seek a waiver of any local or State policy. This provision applies to all public charter schools, during the application process and throughout the term of the contract.

The Board commends the local school board authorizers for ensuring that charter schools are currently operating with autonomies and waivers to local policy negotiated in the charter approval process and codified in the charter contract. The Board encourages local school boards and public charter schools to work together to identify opportunities to increase operational autonomy while maintaining accountability for student outcomes.

MSDE will provide technical assistance to charter school operators and local school systems to support the development of waivers and the negotiated agreements that meet the intent of the waived policy or regulation.

§ 9-108. Rights of employees of a public charter school

(a) In general. -- Employees of a public charter school:

- (1) Are public school employees, as defined in §§ 6-401(e) and 6-501(g) of this article;

(b) Collective bargaining agreement. -- If a collective bargaining agreement under Title 6, Subtitle 4 or Subtitle 5 of this article is already in existence in the county where a public charter school is located, the employee organization, public school employer, and the public charter school may mutually agree to negotiate amendments to the existing agreement to address the needs of the particular public charter school, including amendments to work days, work hours, school year, procedures for transfers that are consistent with the instructional mission of the school, and extra duty assignments.

§ 9-109. Disbursement of funds

A county board shall disburse to a public charter school an amount of county, State, and federal money for elementary, middle, and secondary students that is commensurate with the amount disbursed to other public schools in the local jurisdiction.

§ 9-110. Public charter school policy

(a) In general. --

- (1) Each county board shall develop a public charter school policy and provide it to the State Board.

(2) The policy required under paragraph (1) of this subsection shall include guidelines and procedures regarding:

- (i) Evaluation of public charter schools;
- (ii) Revocation of a charter;
- (iii) Reporting requirements; and
- (iv) Financial, programmatic, or compliance audits of public charter schools.

(3) The policy required under paragraph (1) of this subsection, including any updates or amendments made to the policy, shall be provided to the Department and made available on request and posted on the Web site of the county board.

(b) Contact person. --

Appendix 2: Maryland State Board of Education Policy on Charter Schools

Maryland State Board of Education POLICY THE CHARTER SCHOOL PROGRAM

BACKGROUND:

The Maryland Public Charter School program was adopted into law by Maryland's General Assembly in 2003 through Title 9, §101-110 of the Education Article of the Code of Maryland. The general purpose of the program, as defined by law, is to establish an alternative means within the existing public school system in order to provide innovative learning opportunities and creative educational approaches to improve the education of students.

INTENT:

This policy is established to clearly define the obligations of charter schools and their authorizers. The State Board of Education recognizes that providing flexibility and autonomy in exchange for innovation, educational reform and high accountability is a key component of the Charter School concept.

PURPOSE:

Consistent with the intent of federal legislation and the Maryland Charter School Program law, this State Board declares that the purpose of the State's public charter schools are to:

- A. Improve student learning by creating high-quality public schools with high standards for student performance;
- B. Close achievement gaps between high-performing and low-performing groups of public students;
- C. Increase high-quality educational opportunities within the public education system for all Maryland students and their families;
- D. Create new professional opportunities for teachers, school administrators, and other school personnel that allows them to actively participate in the development of their schools;
- E. Encourage the use of different, high-quality models of teaching, governing, scheduling, or other aspects of schooling that meet a variety of student needs;
- F. Allow, through chartering, public school freedom and flexibility in exchange for exceptional levels of results-driven accountability;
- G. Provide parents, community members, and other non-profit entities with expanded opportunities for involvement in the design, development and management of public school models within the public education system; and
- H. Encourage the replication of successful public charter schools.

I. To achieve these purposes, the State Board encourages each County Board to:

Local Policies

2. Adopt charter school policies that include guidelines related to the application process and its assessment, the process of performance contracting, the process for how charter school operators will be informed of requirements pertaining to children with disabilities, and how the funds will be disbursed to charter schools;
3. Adopt charter school policies and regulations acknowledging the purpose of charter schools and what differentiates them from other public schools. These policies will express a commitment to providing increased flexibilities which will enable charter schools to implement innovations in exchange for higher levels of accountability;
4. Submit their public charter school policies, along with any implementing regulations to the Maryland State Department of Education for review and comment prior to adoption by the County Board;
5. Ensure alignment of charter School policy definitions of commensurate funding with that of the State Board to guarantee that charter schools receive federal, State and local funding in an amount proportionate to the amount of funds expended for elementary, middle and secondary level students in other public schools in the same school system. Such funding includes funding for services for which students in the public charter schools are eligible such as free and reduced priced meals, pre-kindergarten, special education, English language learners, Perkins, Title I and transportation;

Charter School Applications

6. Submit a copy of their application, review process and assessment rubric to the State Department of Education for review and feedback, and re-submit these documents whenever there is a proposed change;
7. Post their most recent application, along with the description of their review process and assessment rubric on their website thereby making it available to charter school developers and the public;
8. Include an assurance statement in the application that will be signed by the developer of the charter school acknowledging and committing to accountability standards in exchange for local school system flexibilities and waivers from local school system policies, internal practices, processes and procedures that have the potential to impact a charter school's ability to implement innovative structures, programs and may impede the functions of the school's non-profit governing board to make decisions pertinent to the school's development and to ensure the implementation of the school's vision and mission;

Flexibilities for Charter Schools

9. Provides flexibility when applying the school system procedures to the charter school, particularly those that could impede or alter a charter school's ability to design and

implement innovative practices in school operations, educational program and school governance and address those flexibilities in the performance contracting process;
