Data Suppression

The Family Educational Rights and Privacy Act (FERPA), 20 U.S.C. §1232g, 34 CFR Part 99, is a federal law that protects the privacy of student education records. Under FERPA, states are responsible for protecting students' personally identifiable information (PII) from disclosure when reporting. Even data that are reported in aggregate have the potential to disclose PII.

Data suppression is a disclosure avoidance method that is used to protect the identities, privacy, and personal information of individuals. To abide by the regulation outlined in FERPA and protect student's PII, MSDE applies suppression rules to aggregated student data that is connected to student education data and outcomes.

MSDE applies a minimum N-size for reporting when data must have a sufficient number of students for the data to be reported. Data are suppressed for any student group where the total enrollment for the student group is fewer than 10. Suppressed data will be represented by an asterisk (*). Enrollment numbers were obtained from the Division of Assessment, Accountability, Performance Reporting & Research and the Division of Early Intervention and Special Education Services.
