Introduction

The Annotated Code of Maryland Education Article § 7-1102.1 requires the Maryland State Department of Education (MSDE) to report to the General Assembly annually (on or before December 1 each year) on the findings and recommendations reported to the MSDE by local school systems (LSSs), other public agencies, and nonpublic schools on restraint and seclusion. The legislation specifically requires the collection of the following data:

- (1) Number of physical restraints and seclusion incidents, disaggregated by the student's jurisdiction, disability, race, gender, age, and type of placement; and
- (2) Professional development provided to designated school personnel related to positive behavioral interventions, strategies, supports, and trauma-informed interventions.

On December 1, 2018, the MSDE submitted its first *Restraint and Seclusion: Data Collection, Findings, and Recommendations* report, as mandated by Education Article § 7-1102.1, based on 2017-2018 school year data. The 2019 *Restraint and Seclusion: Data Collection, Findings, and Recommendations* report builds on the previous year's report and draws on 2018-2019 school year data. As with last year's report, the 2019 report describes the data collection process, provides summary data for the 2018-2019 school year based on LSSs, other public agency, and nonpublic school responses, and outlines findings and recommendations based on an analysis of the data.

Background

The Code of Maryland Regulations (COMAR) 13A.08.04.02 defines *physical restraint* as, “a personal restriction that immobilizes or reduces the ability of a student to move the student's torso, arms, legs, or head freely. Physical restraint does not include: (1) briefly holding a student to calm or comfort the student; (2) a physical escort, which is the temporary touching or holding of the hand, wrist, arm, shoulder, or back for the purposes of inducing a student who is acting out to walk to a safe location; (3) moving a disruptive student who is unwilling to leave the area if other methods such as counseling have been unsuccessful; or (4) intervening in a fight in accordance with Education Article §7-307, Annotated Code of Maryland.”

COMAR Regulation 13A.08.04.02 defines *seclusion* as, “the involuntary confinement of a student alone in a room or area from which the student is physically prevented from leaving. Seclusion does not include a timeout, which is a behavior management technique that is part of an approved program that involves the monitored separation of the student in a non-locked setting, and is implemented for the purpose of calming.”

Under COMAR Regulation 13A.08.04.05 - *Student Behavior Interventions*, the use of physical restraint or seclusion is prohibited in Maryland public agencies and nonpublic schools until there is an emergency situation and physical restraint or seclusion, “is necessary to protect a student or other person from imminent serious physical harm after other less intrusive, nonphysical interventions have failed or been determined inappropriate.”

Restraint and Seclusion Data Collection

To obtain the specific data required under the Annotated Code of Maryland Education Article §7-1102.1 for the 2019 *Restraint and Seclusion: Data Collection, Findings, and Recommendations* report, covering the 2018-2019 school year, the MSDE employed, with minor revisions, the survey developed for the prior year's 2017-2018 data collection (see Appendix A).

For the 2019 data collection, the MSDE disseminated the survey to public agencies (all 24 LSSs and other public agencies) and nonpublic schools in the summer of 2019. A training webinar posted to on MSDE website explained the data collection requirements and provided examples of how the data should be collected.

The survey requested the following data:

- The local education agency (i.e. Maryland's 24 LSSs or other public agencies) or reporting agency (i.e., nonpublic school).
- Name, title, email address, and telephone number of the person completing the survey.
- Restraint data for the 2018-2019 school year:
 - Total number of students who were physically restrained;
 - Total number of physical restraint incidents for students;
 - Number of physical restraint incidents for students with an Individualized Education Program (IEP);
 - Number of physical restraint incidents for special education students disaggregated by disability type;
 - Number of physical restraint incidents for students disaggregated by educational placement type;
 - Number of physical restraint incidents for students with a 504 Plan;
 - Number of physical restraint incidents for students with a 504 Plan disaggregated by area;
 - Number of physical restraint incidents for students by race/ethnicity;
 - Number of physical restraint incidents for students by gender; and
 - Number of physical restraint incidents for students by age.
- Seclusion data for the 2018-2019 school year:
 - Total number students who were secluded;
 - Total number of seclusion incidents;
 - Number of seclusion incidents for students with an Individualized Education Program (IEP);
 - Number of seclusion incidents for special education students disaggregated by disability type;
 - Number of seclusion incidents for students disaggregated by educational placement type;
 - Number of seclusion incidents for students with a 504 Plan;

- Number of seclusion incidents for students with a 504 Plan disaggregated by area;
- Number of seclusion incidents for students by race/ethnicity;
- Number of seclusion incidents for students by gender; and
- Number of seclusion incidents for students by age.
- Identification of professional development provided to school staff on content related to restraint and seclusion based on the following categories:
 - Positive behavior interventions, strategies, and supports;
 - Training in the use of seclusion;
 - Trauma-informed interventions;
 - Training in CPR/first aid;
 - Evidence-based crisis prevention and intervention training programs; and
 - Other.
- Certification indicating that a member of the LSS, other public agency, or nonpublic school has:
 - Observed seclusion rooms; and
 - Reviewed training plans for seclusion.
- Name and title of the individual:
 - Who conducted the observation of seclusion rooms; and
 - Reviewed training plans for seclusion.
- Findings from observations of:
 - Seclusion rooms; and
 - Training plans for seclusion.
- Additional comments.

All 24 LSSs in Maryland responded, along with 25 other public agencies and nonpublic schools, for a total of 49 survey respondents. Excluding the total enrollment data displayed in Tables 1 and 2, which MSDE generated, all the restraint and seclusion data in the tables presented below are self-reported by the respondents. The data for each of the 24 LSSs are disaggregated by the individual school system, whereas the data for the other public agencies and nonpublic schools that responded have been combined to produce overall response totals.

Total Number of Physical Restraint and Seclusion Incidents by Local School System and Other Public Agencies/Nonpublic Schools

Table 1 shows the number of reported physical restraint incidents, which for the 2018-2019 school year in Maryland totaled 19,713. Table 2 shows the number of reported seclusion incidents, which for the 2018-2019 school year in Maryland totaled 9,532.

Table 1. Reported Number of Physical Restraint Incidents for 2018-2019

Respondent	Total Enrollment	Number of Physical Restraint Incidents
Allegany County	8,539	26
Anne Arundel County	83,300	1002
Baltimore City	79,297	143
Baltimore County	113,814	1,053

Worcester County	0	1
Other Public Agencies/ Maryland Nonpublic Schools (N=25)	0	4,215

Note: The reported number of students for all other public agencies and nonpublic schools who responded is combined (N=total number of nonpublic schools/other public agencies who responded).

Observations of Seclusion Rooms

Survey respondents were asked to report on whether someone from the LSS, other public agency, or nonpublic school had observed their system's or school's seclusion room(s). Many respondents indicated that their LSS, other public agency, or nonpublic school does not employ seclusion as a practice and, therefore, does not use seclusion rooms. There were 17 respondents who checked either "No" or "Other" to this survey question and 35 respondents (19 LSSs and 16 other public agencies or nonpublic schools) who checked "Yes" to this question.

Chart 1. Percentage of LSSs, Other Public Agencies, and Nonpublic Schools that Observed Seclusion Rooms

Training Plans for Seclusion

Survey respondents were asked to report on whether someone from the LSS, other public agency, or nonpublic school had reviewed their system’s or school’s training plans for seclusion. Many respondents indicated that their LSS, other public agency, or nonpublic school does not employ seclusion as a practice and, therefore, had not developed training plans for seclusion. There were 17 respondents who checked either “No” or “Other” to this survey question and 35 respondents (19 LSSs and 16 other public agencies or nonpublic schools) who checked “Yes” to this question.

Chart 2. Percentage of LSSs, Other Public Agencies, and Nonpublic Schools Reporting that Training Plans for Seclusion Had Been Reviewed

Professional Development Provided to Staff

Survey respondents were asked to report on the professional development relating to restraint and seclusion provided to LSS, other public agency, or nonpublic school staff during the 2018-2019 school year. Drawing on the areas of professional development identified in the governing statute, Chart 3 provides an illustration of the professional development activities identified by respondents.

Chart 3. Percentage of LSSs, Other Public Agencies, and Nonpublic Schools who Provided Professional Development to Staff Related to Restraint and Seclusion in 2018-2019 by Area

Training identified as part of the “Other” category included the following:

- Principals of applied behavior analysis;
- Functional behavior assessment;
- CPR and first aid;
- Positional asphyxiation;
- Conflict resolution and mediation skills;
- Restorative practices;
- Safety care;
- Therapeutic crisis intervention;
- Ukeru systems training;
- Seclusion versus exclusion; and

- Therapeutic Aggression Control Techniques (TACT) 2 training.

Recommendations

This report presents data collected on restraint and seclusion for Maryland public and nonpublic schools for the 2018-2019 academic school year. After a review of the data, the following recommendations are provided for consideration.

- LSSs and nonpublic schools should follow guidance provided in *Student Behavior Interventions: Restraint and Seclusion* and *Student Behavior Interventions: Physical Restraint and Seclusion Supplement on Student with Disabilities* published by the MSDE in July 2019. These guidance documents include a detailed explanation of the updated COMAR regulations and best practices.
- The MSDE should continue to provide support and technical assistance to Directors of Student Services and other key central office personnel and nonpublic schools as needed on restraint and seclusion based on the guidance published by the MSDE.
- The MSDE should complete the development of a database of evidence-based practices in the area of restraint and seclusion to facilitate the training and technical assistance provided to schools.

Appendix A

Restraint and Seclusion Data Collection Survey for 2018-2019

**Division of Student Support, Academic Enrichment, and Educational Policy
Maryland State Department of Education
200 West Baltimore Street
Baltimore, MD 21201**

Survey Background, Instructions, and Definitions

Chapter 611 (*Restraint and Seclusion-Consideration and Reporting*) requires that each public agency, public school system, and nonpublic special education school in Maryland submit annual data on restraint and seclusion to the Maryland State Department of Education. These data are then compiled into a report that will be shared with the General Assembly.

The requested data include the following: (1) Incidents of Restraint and Seclusion; (2) Professional Development; (3) Observation of Seclusion Rooms; and (4) Review of Training Plans for the Use of Seclusion.

Please complete the survey items based upon the data that have been collected from July 1, 2018 to June 1, 2019. The survey will be open for data entry from June 13, 2019 to July 16, 2019.

Contact: For any questions about the data collection or survey, please contact Deborah Nelson by email at deborah.nelson@maryland.gov or by phone at 410-767-0294.

Definitions

NONPUBLIC SCHOOL: a school that receives funds from the Maryland State Department of Education for the purpose of providing special education and related services to students with disabilities.

PUBLIC AGENCY: A local school system, the Maryland School for the Deaf, the Maryland School for the Blind.

SECLUSION: The involuntary confinement of a student alone in a room or area from which the student is physically prevented from leaving. Seclusion does not include a timeout, which is a behavior management technique that is part of an approved program that involves the monitored separation of the student in a non-locked setting, and is implemented for the purpose of calming.

PHYSICAL RESTRAINT: Physical Restraint: A personal restriction that immobilizes or reduces the ability of a student to move the student's torso, arms, legs, or head freely. Physical restraint does not include a physical escort, which is the temporary touching or holding of the hand, wrist, arm, shoulder, or back for the purposes of inducing a student who is acting out to walk to a safe location; moving a disruptive student who is unwilling to leave the area if other methods such as counseling have been unsuccessful; or intervening in a fight.

(Definitions used for restraint and seclusion are from the Code of Maryland Regulations 13A.08.04)

NOTE: The local superintendent is also required to sign and submit the Restraint and Seclusion Data Collection Certification Statement, along with a copy of the local school system policy on

restraint and seclusion, no later than July 16, 2019.

RESTRAINT

(Note: Please respond to all questions below regarding restraint for your school system, public agency, or nonpublic school for the 2018-2019 school year.)

*** 3. Please provide the total number of students who were physically restrained:**

* 4. Provide the total number of physical restraint incidents for students (Note: There may be multiple incidents per student.)

5. Provide the number of physical restraint incidents that included students with and Individualized Educational Program (IEP):

6. Provide the number of physical restraint incidents that included students with the following special education disabilities:

Autism:

Hearing Impairment:

Deaf/Blind:

Developmental Delay:

Emotional Disturbance:

Intellectual Disability:

Multiple Disability:

Orthopedic Impairment:

Other Health Impairment:

Specific Learning Disability:

Speech/Language Impairment:

Traumatic Brain Injury:

Visual Impairment:

Deaf:

7. Provide the number of physical restraint incidents for students with the following placements:

General Education:	<input type="text"/>
Mixed General Education/Outside General Education:	<input type="text"/>
Separate Class:	<input type="text"/>
Public Separate Day School:	<input type="text"/>
Private Separate Day School:	<input type="text"/>
Public Residential:	<input type="text"/>
Private Residential:	<input type="text"/>
Other:	<input type="text"/>

8. Provide the number of physical restraint incidents for students with a 504 plan:

9. Provide the number of physical restraint incidents for students with 504 plans that address the following areas:

Emotional (e.g., depression, anxiety):	<input type="text"/>
Behavioral (e.g., ADHD):	<input type="text"/>
Physical (e.g., chronic health condition):	<input type="text"/>
Other:	<input type="text"/>

10. Provide the number of physical restraint incidents for students by race/ethnicity:

White:	<input type="text"/>
African American:	<input type="text"/>
Asian:	<input type="text"/>
American Indian/Alaskan:	<input type="text"/>
Native Hawaiian/Pacific Islander:	<input type="text"/>
Hispanic	<input type="text"/>
Two or More Races:	<input type="text"/>

11. Provide the number of physical restraint incidents for students by gender:

Male:

Female:

Transgender:

12. Provide the number of physical restraint incidents for students by age:

PROFESSIONAL DEVELOPMENT

23. Identify the professional development provided to school staff authorized to perform as school-wide resources or authorized to perform restraint and/or seclusion on content related to **restraint and seclusion** during the 2018-2019 school year (check all that apply).

- Positive Behavior Interventions, Strategies, and Supports
- Training in the Use of Seclusion
- Trauma Informed Interventions
- Training in CPR/First Aid
- Evidence-Based Crisis Prevention and Intervention Training (i.e., CPI) Program
- Other (please specify)

CERTIFICATION FOR OBSERVATION OF SECLUSION ROOMS

(For current COMAR Guidelines on Seclusion Rooms, refer to 13a.08.04.05 which can be accessed at the following link: <http://www.dsd.state.md.us/comar/comarhtml/13a/13a.08.04.05.htm>)

24. A member of the local school system, public agency, or nonpublic school has observed seclusion rooms.

- Yes
- No
- Other (please specify)

25. Please provide the name and title of Individual who conducted the observation of seclusion rooms:

26. A member of the local school system, public agency, or nonpublic school has reviewed training plans for seclusion.

- Yes
- No
- Other (please specify)

27. Please provide the name and title of Individual who reviewed training plans for seclusion:

28. Findings from observations of seclusion rooms:

29. Findings from observations of training plans for seclusion:

30. Additional Comments:
