

§77.1 Definitions that apply to all Department programs.

(a) [Reserved]

(b) Unless a statute or regulation provides otherwise, the following definitions in 2 CFR part 200 apply to the regulations in title 34 of the Code of Federal Regulations. The section of 2 CFR part 200 that contains the definition is given in parentheses as well as references to the term or terms used in title 34 that are consistent with the term defined in title 2.

Contract (2 CFR 200.22).

Equipment (2 CFR 200.33).

Federal award (2 CFR 200.38) (The terms “award,” “grant,” and “subgrant”, as defined in paragraph (c) of this section, have the same meaning, depending on the context, as “Federal award” in 2 CFR 200.38.).

Period of performance (2 CFR 200.77) (For discretionary grants, ED uses the term “project period,” as defined in paragraph (c) of this section, instead of “period of performance” to describe the period during which funds can be obligated.).

Personal property (2 CFR 200.78).

Real property (2 CFR 200.85).

Recipient (2 CFR 200.86).

Subaward (2 CFR 200.92) (The term “subgrant,” as defined in paragraph (c) of this section, has the same meaning as “subaward” in 2 CFR 200.92).

Supplies (2 CFR 200.94).

(c) Unless a statute or regulation provides otherwise, the following definitions also apply to the regulations in this title:

Acquisition means taking ownership of property, receiving the property as a gift, entering into a lease-purchase arrangement, or leasing the property. The term includes processing, delivery, and installation of property.

Ambitious means promoting continued, meaningful improvement for program participants or for other individuals or entities affected by the grant, or representing a significant advancement in the field of education research, practices, or methodologies. When used to describe a performance target, whether a performance target is ambitious depends upon the context of the relevant performance measure and the baseline for that measure.

Applicant means a party requesting a grant or subgrant under a program of the Department.

Application means a request for a grant or subgrant under a program of the Department.

Award has the same meaning as the definition of “Grant” in this paragraph (c).

Baseline means the starting point from which performance is measured and targets are set.

Budget means that recipient's financial plan for carrying out the project or program.

Budget period means an interval of time into which a project period is divided for budgetary purposes.

Department means the U.S. Department of Education.

Direct grant program means any grant program of the Department other than a program whose authorizing statute or implementing regulations provide a formula for allocating program funds among eligible States.

Cross-Reference: See 34 CFR 75.1(b).

Director of the Institute of Museum Services means the Director of the Institute of Museum Services or an officer or employee of the Institute of Museum Services acting for the Director under a delegation of authority.

Director of the National Institute of Education means the Director of the National Institute of Education or an officer or employee of the National Institute of Education acting for the Director under a delegation of authority.

ED means the U.S. Department of Education.

EDGAR means the Education Department General Administrative Regulations (34 CFR parts 75, 76, 77, 79, 81, 82, 84, 86, 97, 98, and 99).

Elementary school means a day or residential school that provides elementary education, as determined under State law.

Evidence of promise means there is empirical evidence to support the theoretical linkage(s) between at least one critical component and at least one relevant outcome presented in the logic model for the proposed process, product, strategy, or practice. Specifically, evidence of promise means the conditions in both paragraphs (i) and (ii) of this definition are met:

(i) There is at least one study that is a—

(A) Correlational study with statistical controls for selection bias;

(B) Quasi-experimental design study that meets the What Works Clearinghouse Evidence Standards with reservations; or

(C) Randomized controlled trial that meets the What Works Clearinghouse Evidence Standards with or without reservations.

(ii) The study referenced in paragraph (i) of this definition found a statistically significant or substantively important (defined as a difference of 0.25 standard deviations or larger) favorable association between at least one critical component and one relevant outcome presented in the logic model for the proposed process, product, strategy, or practice.

Facilities means one or more structures in one or more locations.

Fiscal year means the Federal fiscal year—a period beginning on October 1 and ending on the following September 30.

GEPA means The General Education Provisions Act.

Grant means financial assistance, including cooperative agreements, that provides support or stimulation to accomplish a public purpose. 2 CFR part 200, as adopted in 2 CFR part 3474, uses the broader, undefined term “Award” to cover grants, subgrants, and other agreements in the form of money or property, in lieu of money, by the Federal Government to an eligible recipient. The term does not include—

- (1) Technical assistance, which provides services instead of money;
- (2) Other assistance in the form of loans, loan guarantees, interest subsidies, or insurance;
- (3) Direct payments of any kind to individuals; and
- (4) Contracts that are required to be entered into and administered under procurement laws and regulations.

Grantee means the legal entity to which a grant is awarded and that is accountable to the Federal Government for the use of the funds provided. The grantee is the entire legal entity even if only a particular component of the entity is designated in the grant award notice (GAN). For example, a GAN may name as the grantee one school or campus of a university. In this case, the granting agency usually intends, or actually intends, that the named component assume primary or sole responsibility for administering the grant-assisted project or program. Nevertheless, the naming of a component of a legal entity as the grantee in a grant award document shall not be construed as relieving the whole legal entity from accountability to the Federal Government for the use of the funds provided. (This definition is not intended to affect the eligibility provision of grant programs in which eligibility is limited to organizations that may be only components of a legal entity.) The term “grantee” does not include any secondary recipients, such as subgrantees and contractors, that may receive funds from a grantee pursuant to a subgrant or contract.

Grant period means the period for which funds have been awarded.

Large sample means an analytic sample of 350 or more students (or other single analysis units), or 50 or more groups (such as classrooms or schools) that contain 10 or more students (or other single analysis units).

Local educational agency means:

(a) A public board of education or other public authority legally constituted within a State for either administrative control of or direction of, or to perform service functions for, public elementary or secondary schools in:

(1) A city, county, township, school district, or other political subdivision of a State; or

(2) Such combination of school districts or counties a State recognizes as an administrative agency for its public elementary or secondary schools; or

(b) Any other public institution or agency that has administrative control and direction of a public elementary or secondary school.

(c) As used in 34 CFR parts 400, 408, 525, 526 and 527 (vocational education programs), the term also includes any other public institution or agency that has administrative control and direction of a vocational education program.

Logic model (also referred to as theory of action) means a well-specified conceptual framework that identifies key components of the proposed process, product, strategy, or practice (i.e., the active “ingredients” that are hypothesized to be critical to achieving the relevant outcomes) and describes the relationships among the key components and outcomes, theoretically and operationally.

Minor remodeling means minor alterations in a previously completed building. The term also includes the extension of utility lines, such as water and electricity, from points beyond the confines of the space in which the minor remodeling is undertaken but within the confines of the previously completed building. The term does not include building construction, structural alterations to buildings, building maintenance, or repairs.

Moderate evidence of effectiveness means one of the following conditions is met:

(i) There is at least one study of the effectiveness of the process, product, strategy, or practice being proposed that meets the What Works Clearinghouse Evidence Standards without reservations, found a statistically significant favorable impact on a relevant outcome (with no statistically significant and overriding unfavorable impacts on that outcome for relevant populations in the study or in other studies of the intervention reviewed by and reported on by the What Works Clearinghouse), and includes a sample that overlaps with the populations or settings proposed to receive the process, product, strategy, or practice.

(ii) There is at least one study of the effectiveness of the process, product, strategy, or practice being proposed that meets the What Works Clearinghouse Evidence Standards with reservations, found a statistically significant favorable impact on a relevant outcome (with no statistically significant and overriding unfavorable impacts on that outcome for relevant populations in the study or in other studies of the intervention reviewed by and reported on by the What Works Clearinghouse), includes a sample

that overlaps with the populations or settings proposed to receive the process, product, strategy, or practice, and includes a large sample and a multi-site sample.

Note: Multiple studies can cumulatively meet the large and multi-site sample requirements as long as each study meets the other requirements in this paragraph.

Multi-site sample means more than one site, where site can be defined as an LEA, locality, or State.

National level describes the level of scope or effectiveness of a process, product, strategy, or practice that is able to be effective in a wide variety of communities, including rural and urban areas, as well as with different groups (e.g., economically disadvantaged, racial and ethnic groups, migrant populations, individuals with disabilities, English learners, and individuals of each gender).

Nonprofit, as applied to an agency, organization, or institution, means that it is owned and operated by one or more corporations or associations whose net earnings do not benefit, and cannot lawfully benefit, any private shareholder or entity.

Nonpublic, as applied to an agency, organization, or institution, means that the agency, organization, or institution is nonprofit and is not under Federal or public supervision or control.

Performance measure means any quantitative indicator, statistic, or metric used to gauge program or project performance.

Performance target means a level of performance that an applicant would seek to meet during the course of a project or as a result of a project.

Preschool means the educational level from a child's birth to the time at which the State provides elementary education.

Private, as applied to an agency, organization, or institution, means that it is not under Federal or public supervision or control.

Project means the activity described in an application.

Project period means the period established in the award document during which Federal sponsorship begins and ends (See, 2 CFR 200.77 Period of performance).

Public, as applied to an agency, organization, or institution, means that the agency, organization, or institution is under the administrative supervision or control of a government other than the Federal Government.

Quasi-experimental design study means a study using a design that attempts to approximate an experimental design by identifying a comparison group that is similar to the treatment group in important respects. These studies, depending on design and implementation, can meet What Works Clearinghouse Evidence Standards with reservations (but not What Works Clearinghouse Evidence Standards without reservations).

Randomized controlled trial means a study that employs random assignment of, for example, students, teachers, classrooms, schools, or districts to receive the intervention being evaluated (the treatment group) or not to receive the intervention (the control group). The estimated effectiveness of the intervention is the difference between the average outcomes for the treatment group and for the control group. These studies, depending on design and implementation, can meet What Works Clearinghouse Evidence Standards without reservations.

Regional level describes the level of scope or effectiveness of a process, product, strategy, or practice that is able to serve a variety of communities within a State or multiple States, including rural and urban areas, as well as with different groups (e.g., economically disadvantaged, racial and ethnic groups, migrant populations, individuals with disabilities, English learners, and individuals of each gender). For an LEA-based project, to be considered a regional-level project, a process, product, strategy, or practice must serve students in more than one LEA, unless the process, product, strategy, or practice is implemented in a State in which the State educational agency is the sole educational agency for all schools.

Relevant outcome means the student outcome(s) (or the ultimate outcome if not related to students) the proposed process, product, strategy, or practice is designed to improve; consistent with the specific goals of a program.

Secondary school means a day or residential school that provides secondary education as determined under State law. In the absence of State law, the Secretary may determine, with respect to that State, whether the term includes education beyond the twelfth grade.

Secretary means the Secretary of the Department of Education or an official or employee of the Department acting for the Secretary under a delegation of authority.

Service function, with respect to a local educational agency:

(a) Means an educational service that is performed by a legal entity—such as an intermediate agency:

(1)(i) Whose jurisdiction does not extend to the whole State; and

(ii) That is authorized to provide consultative, advisory, or educational services to public elementary or secondary schools; or

(2) That has regulatory functions over agencies having administrative control or direction of public elementary or secondary schools.

(b) The term does not include a service that is performed by a cultural or educational resource.

State means any of the 50 States, the Commonwealth of Puerto Rico, the District of Columbia, Guam, American Samoa, the Virgin Islands, the Northern Mariana Islands, or the Trust Territory of the Pacific Islands.

State educational agency means the State board of education or other agency or officer primarily responsible for the supervision of public elementary and secondary schools in a State. In the absence of this officer or agency, it is an officer or agency designated by the Governor or State law.

Strong evidence of effectiveness means one of the following conditions is met:

(i) There is at least one study of the effectiveness of the process, product, strategy, or practice being proposed that meets the What Works Clearinghouse Evidence Standards without reservations, found a statistically significant favorable impact on a relevant outcome (with no statistically significant and overriding unfavorable impacts on that outcome for relevant populations in the study or in other studies of the intervention reviewed by and reported on by the What Works Clearinghouse), includes a sample that overlaps with the populations and settings proposed to receive the process, product, strategy, or practice, and includes a large sample and a multi-site sample.

Note: Multiple studies can cumulatively meet the large and multi-site sample requirements as long as each study meets the other requirements in this paragraph.

(ii) There are at least two studies of the effectiveness of the process, product, strategy, or practice being proposed, each of which: Meets the What Works Clearinghouse Evidence Standards with reservations, found a statistically significant favorable impact on a relevant outcome (with no statistically significant and overriding unfavorable impacts on that outcome for relevant populations in the studies or in other studies of the intervention reviewed by and reported on by the What Works Clearinghouse), includes a sample that overlaps with the populations and settings proposed to receive the process, product, strategy, or practice, and includes a large sample and a multi-site sample.

Strong theory means a rationale for the proposed process, product, strategy, or practice that includes a logic model.

Subgrant means an award of financial assistance in the form of money, or property in lieu of money, made under a grant by a grantee to an eligible subgrantee. The term includes financial assistance when provided by contractual or any other form of legal agreement, but does not include procurement purchases, nor does it include any form of assistance that is excluded from the definition of “grant or award” in this part (See 2 CFR 200.92, “Subaward”).

Subgrantee means the government or other legal entity to which a subgrant is awarded and that is accountable to the grantee for the use of the funds provided.

What Works Clearinghouse Evidence Standards means the standards set forth in the What Works Clearinghouse Procedures and Standards Handbook (Version 3.0, March 2014), which can be found at the following link:<http://ies.ed.gov/ncee/wwc/DocumentSum.aspx?sid=19>.

Work of art means an item that is incorporated into facilities primarily because of its aesthetic value.
