

ALL HANDS ON DECK: SUPPORTING SEX ED IN SCHOOLS

MARYLAND STATE SCHOOL HEALTH COUNCIL (MSSHC) 2022-2023 WEBINAR SERIES

Effective sex education must be part of a comprehensive health education program which is required in MD schools. Recently updated MD Frameworks for Health Education have prompted some concern among parents and community stakeholders which districts must respond to. Ensuring that school district staff are familiar with the latest data and evidence supporting sex education is essential in responding effectively to these concerns. There is a role for everyone to play in supporting the sex education our students need and deserve.

THURSDAY
FEBRUARY 16, 2023
3:30PM - 4:15PM

Virtual via Zoom
