# Contents

# Foreword

Student records provide an accurate presentation of the academic performance of a student. Therefore, the concise and comprehensive maintenance of these records is necessary to ensure accurate information is available to plan for a student's education.

The Code of Maryland Regulations (COMAR) requires schools to have systems of information on student enrollment, student attendance, student discipline, and promotion. Each local school system (LSS) may collect additional information.

The purpose of this manual is to provide instructions and sample forms to assist in the maintenance of this information. The forms were designed to incorporate all requirements necessary to earn a Maryland High School Diploma.

# Adoption

The Maryland Student Records System Manual was adopted by the Maryland State Board of Education on August 25, 2020, and will be implemented by the 2020-2021 school year.

# Delegation of Responsibility

The responsibilities of the local school system shall include, but not be limited to, the following:

- Each local school system should develop and implement procedures to ensure that these data are collected and records maintained accurately in accordance with the guidelines set forth in this manual.
- Each local school system is responsible for maintaining the confidentiality of these student records in accordance with state and federal requirements.
- Records retention and disposition procedures.

The responsibilities of the school principal shall include, but not be limited to, the following:

- Each principal is responsible for collecting, maintaining, and using the student records in accordance with the guidelines set forth in this manual and those developed by the local school system.
- Each principal is responsible for adhering to the records retention and disposition procedures outlined in this manual and those procedures developed by the local school system.
- Principals should acquaint themselves with the student records system, provide leadership to their staff on its implementation, and periodically check the system's operation.
- Each principal is responsible for maintaining the confidentiality of these student records in accordance with state and federal requirements.
- Each principal is responsible for certifying, annually, in writing, to the local superintendent, the accuracy of student data maintained in the student records at the educational institution in compliance with COMAR 13A.08.02.07D.

# Relevant State and Federal Requirements

All student records are to be maintained in accordance with:

- Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232g) and its implementing regulations (34 CFR Part 98);
- Individuals with Disabilities Education Act (IDEA) (20 U.S.C. §1400 et seq.) and its implementing regulations (34 CFR. §§300.610 – 300.627);

## Student Record Cards

The Student Record (SR) cards listed below comprise a system for keeping student records. All of the data elements contained on the cards are required, but the actual formatted cards are not mandatory, except for SR7.

| Card | Type of Information |
|---|---|
| SR 1, Side 1 | Student's Personal Data |
| SR 1, Side 2 | Student's School Attendance Data |
| SR 2, Side 1 | Annual Early Childhood School Performance |
| SR 2, Side 2 | Annual Middle School Performance |
| SR 3, Side 1 | Annual Secondary School Performance |
| SR 3, Side 2 | Maryland High School Graduation Requirements |

| SR 4, Side 2 | Local School System Testing |
| SR 5, Side 1 | Health Screening |
| SR 5, Side 2 | Health Screenings, Examinations, and Evaluations |
| SR 7 | Maryland Student Exit Record |

These instructions are written to help school personnel record pertinent information in a uniform manner throughout the State. For each item on the card, definitions appear so that like data are recorded for all students; where appropriate, codes are listed.

While the State minimum standard does not prescribe a definite format for all types of data (as the cards listed above), it is a requirement that the records of any student who transfers out of a local school system must be transmitted to the receiving school system in such a manner that all data elements, required on specific cards, will be on those respective cards. Repetitive information in the headings of the SR cards may be preprinted in order that this information will be readily available to those who maintain the records.

A local school system is free to expand its SR cards to include more than the required student information items. For various reasons, the local school systems may wish to collect and use data that are much more detailed. The State minimum standards are not intended to restrict the kinds or the amount of data that may be included on the Student Record cards. However, items included in the State minimum standards are to be collected, maintained, and used according to the instructions in this manual.

The Student Records System must be used to initiate student records for each student entering Maryland public schools. Each local school system and school is responsible for obtaining the required information in a manner that is most suitable to its own situation. The information that is recorded will be kept as a permanent record of the student and therefore, must be accurate, readable, and current. Care should be taken to avoid the possibility of invading the privacy of both students and parents or

guardians. Personal information needed from a parent or guardian should be obtained at the time of the registration interview. If it is not obtained at this time, personal information should be obtained in a later conference with the parents or guardians.

The responsibility of the principal for collecting, maintaining, and using the student record information cannot be overstated. Principals should acquaint themselves with the system, provide leadership to their staff in its implementation, and carefully check the system's operation periodically.

Foster care does not include placement of a child in any of the following placements: a detention facility, a forestry camp, a training school, a State-owned and State-operated facility that accommodates more than 25 children, or any other facility operated primarily for the detention of children who are determined to be delinquent.

## Dually Enrolled Students

The term "dual or concurrent enrollment program" means a program offered by a partnership between at least one institution of higher education and at least one local school system through which a secondary school student who has not graduated from high school with a regular high school diploma is able to enroll in one or more postsecondary courses and earn postsecondary credit that:

(A) Is transferable to the institutions of higher education in the partnership; and
(B) Applies toward completion of a degree or recognized educational credential, as described in the Higher Education Act of 1965 (20 U.S.C. 1001 et seq.).

## Maryland Home Language Survey

In accordance with state and federal requirements, the Home Language Survey will be administered to all students and used only for determining whether a student needs English language support services. The Home Language Survey information will not be used for immigration matters or reported to immigration authorities. If a language other than English is indicated on two or more of the three questions below, the student will be assessed for English language support services. Additional criteria for testing may be considered. The survey questions include:

1. What language(s) did the student first learn to speak?
2. What language does the student use most often to communicate?
3. What language(s) are spoken in your home?

## Economically Disadvantaged Status

A measure of a student's economic disadvantage as established by the Maryland State Board of Education.

## Free and Reduced Price Meal Services (FARMS)

FARMS is an indicator of a student's eligibility to receive Free or Reduced Price Meals under the National School Lunch Program. This includes students who are eligible through annual household applications or students who are "directly certified" for free meals using electronic matching for the following

assistance programs: Supplemental Nutrition Assistance Program (SNAP), Temporary Assistance to Needy Families (TANF), Foster Care Services (FOSTER). Other source documents for direct certification are: local liaisons' lists for children experiencing homelessness, Head Start children, migrant youth, runaways, and non-applicants approved by local school system officials.

The permitted values for FARMS Status are:

- F — Free is the student's level of eligibility to participate in the National School Lunch Program for breakfast, lunch, snack, supper, and milk programs.
- R — Reduced price is the student's level of eligibility to participate in the National School Lunch Program for breakfast, lunch, snack, supper, and milk programs.
- N — No, student is not eligible to receive free or reduced price meals.

### This card must be retained until the student is 21 years of age.

Student Record Card 2, Side 1 (SR2, Side 1) and Student Record Card 2, Side 2 (SR2, Side 2) must be used for recording performance data for early learning outcomes, care prior to kindergarten (i.e., prekindergarten, Head Start, child care center, nonpublic nursery school, and through grade 8). Maintenance of this record must begin when a child who is receiving any services reaches age 3. For students with disabilities attending nonpublic special education programs at public cost, this record must be maintained and updated annually. The local school system may elect to begin recording information for children younger than age 3.

The recording of summer school records is the responsibility of the school in which the student is enrolled for the regular session immediately following the summer session. Listed below are the minimum items to be included on the SR2, Side 1 and SR2, Side 2. Additional items may be included.

## Additional Health Information

Copies of the three forms described below and additional information about them can be found on the [MSDE School Health Services website](#) at [www.mdschoolhealthservices.org](#).

These forms must be retained for five years from date of withdrawal or until the student reaches the age of 21, whichever is later ([COMAR 10.01.16.04](#)).

### *Immunizations*

### Maryland Department of Health (MDH) Immunization Certificate (MDH Form 896)

State law ([Md. Code, Ed. Art., §7-403](#) and [COMAR 10.06.04](#)) establishes immunization requirements for enrollment in schools. [MDH Form 896](#) complies with this law and regulation. The school authority may also accept, in lieu of a form provided by the Secretary of Health, a printed or computer-generated form that lists the following:

- Name of the student;
- Student's date of birth;
- Name and address of parent/guardian;
- Complete history of vaccines received with month, day, and year for each vaccine dose; and
- Signature and title of the physician, health official, school official, or day care provider providing the form, and date signed ([COMAR 10.06.04.03B](#)).

Side 1 of MDH Form 896 is used for immunization history data for ALL students entering school regardless of age. Each student record file MUST contain an original or photocopy of MDH Form 896 or a printed or computer-generated immunization record form.

Computer-generated labels may be affixed to the card in lieu of typed or handwritten data. If labels are used, they should be placed as close as possible to the corresponding printed area.

When vaccines are administered, subsequent to completion of MDH Form 896, the date of the additional dose should be indicated in the box corresponding to the vaccine given. The original MDH Form 896 should then be recertified by having the form signed, initialed, titled, and dated by the school or health official in the certification area of the form, or a new form may be generated. The same procedure shall be used in instances where a printed or computer generated immunization form is used.

A student who is not in compliance with this requirement shall be temporarily admitted to or retained in a school if the student, parent, or guardian presents evidence of an appointment with a health care provider or health department to: (1) receive a required immunization; (2) reconstruct a lost record; or (3) acquire evidence of age-appropriate immunity (COMAR 10.06.04.06A).

The date of the appointment may not be later than 20 calendar days following the date the student was temporarily admitted or retained (COMAR 10.06.04.06B). Evidence of the appointment should be submitted and attached to the immunization form. Should a student require several vaccinations over an extended period in order to comply with the school-entry requirements, written documentation shall be noted on or attached to the immunization form indicating the date(s) vaccine(s) are to be received. Should a student not receive the vaccinations, the student shall be excluded from school until such proof can be provided.

## Immunizations and State Aid Eligibility

To be eligible for State Aid, a student must have age-appropriate immunizations:

1. A parent/guardian shall provide evidence of age-appropriate immunizations and information shall be recorded on MDH Form 896.
2. The school authorities shall certify the form with signature, title of signer, and date.
3. The school authorities may accept, in lieu of MDH Form 896, a printed or computer generated form that lists the following information:
   - Name of the student;
   - Student's date of birth;
   - Name of parent/guardian;
   - Complete history of vaccines received with month, day, and year for each vaccine dose; and
   - Signature and title of the physician, health official, school official, or day care provider providing the form, and date signed.

## Immunization Exemptions

### *Military Connected Students*

Maryland, along with the 49 other states and the District of Columbia, belongs to the [Interstate Compact on Educational Opportunity for Military Children](#) to ease the transition for students and to ensure that there are no barriers to educational success imposed on children of military families because of frequent moves and deployment of their parent(s)/guardian(s).

The [Interstate Compact of Maryland](#) allows specific immunization provisions for children of military families. Students who are dependents of active duty members of the uniformed services, including members of the National Guard and Reserve on active duty orders (Title 10), members or veterans who are medically discharged or retired for one year, members who die on active duty for a period of one year after death, and uniform members of the Commissioned Corps of the National Oceanic and Atmospheric Administration (NOAA) and United States Public Health Services (USPHS) are covered under the Compact.

Active duty deployment is defined as the period of one month prior to the service member's departure from their home station on military orders through six months after return to their home station. Military students will have 30 days, from the date of enrollment, to obtain any immunizations required or at least start the series of required vaccinations. The Interstate Compact Article, IV.C overrides COMAR or local regulations regarding the number of days allowed to obtain immunizations.

### *Homeless Students*

A student who is homeless shall not be excluded from school for non-compliance with the immunization requirement for school entry. The designated school health professional should continue to work with the student, family, and local health department to obtain required proof of immunity. For auditing purposes, immunization records are required for students enrolled through 21 years of age.

### *Immunization Conflict with Beliefs*

Using [MDH Form 896](#), a student whose parent/guardian objects to immunization on the ground that the immunization conflicts with the parent's/guardian's bona fide religious beliefs and practices is exempt from the requirement to present a physician's certificate of immunization in order that the student be admitted to school ([COMAR 10.06.04.05](#)). These requirements do not apply to a student who presents a licensed physician or health officer's written statement that the student's immunization against a disease is medically contraindicated ([COMAR 10.06.04.04](#)).

## *Blood Lead Certificate*

Maryland requires in areas designated as "at-risk" for lead poisoning (as determined under Section 18-106 of the Health-General Article), when a child enters a public prekindergarten, kindergarten, or first grade, the parent/guardian of the child shall provide documentation from a health care provider certifying that the child has undergone blood testing for lead poisoning (COMAR 10.11.04.05). The Maryland Department of Health has developed a Blood Lead Certificate, MDH Form 4620, which is to be submitted to schools upon enrollment of the child. As with all health records, the Blood Lead Certificate is to be retained until the student reaches 21 years of age.

## *Health Inventory*

Physical examinations are required for each child entering the Maryland public school system for the first time. The examination shall be completed within the period of nine months before entrance or six months after entrance. The physical examination form designated by the Maryland State Department of Education and the Maryland Department of Health shall be used to meet this requirement (COMAR 13A.05.05.07A). If a student moves into Maryland from another state, at any time during grades prekindergarten through 12, a physical examination is required. There is no exclusion from school if the physical examination is not completed. However, for each school year, the local board of education or local health department shall report the number of children who have not had a physical examination and the reason or reasons for not obtaining the physical examination to the Maryland Department of Health.

A copy of this document can be obtained by contacting the Office of School Health at the Maryland Department of Health, or by contacting the Health Services Specialists at the MSDE. As with all health records, the Record of Physical Examination is to be retained until the student reaches 21 years of age.

# Student Record Card 7 – Maryland Student Exit Record
### *This card must be retained for three years from the date of the Certifying Signature.*

Student Record Card 7 (SR7) is to be completed electronically or in pen for the current school year by the sending school. A copy should be provided to the parent/guardian to assist in school registration. It must be sent for all students transferring between local school systems in Maryland, within the same local school system in Maryland, to a nonpublic school, or to an out-of-state school. Attached student information must be stapled to ensure security. Do not send any official student records until an official request is submitted by the receiving school. Upon receipt of the official request, the student records must be sent expeditiously. The request for records from the receiving school should be maintained with the student record as evidence of the transfer (34 CFR §98.32).

Completion of SR7 is not sufficient for exiting a student from the school, but a copy should be provided to the parent/guardian to assist in school registration. Local school systems and schools must ensure continuance of educational services, and provide sufficient documentation, prior to exiting a student.

# Statewide Educational Exit Interview Form

Each local school system will develop and implement a procedure to conduct an educational interview with all students who are age 18, or otherwise exempt from compulsory age of attendance, and desire to leave school prior to graduation, with or without their parent's or guardian's permission (COMAR 13A.08.01.07E).

At a minimum, the interview should encourage the student to remain in the student's current school program or enroll in an alternative school program, verify the reason or reasons for the student dropping out of school, and ensure that the parent or guardian is informed.

Listed below are the minimum fields that should be captured on the Statewide Educational Exit Interview form. Additional information may be added by the local school system, as needed.

# Student Record Cards Procedures for Exiting Students

Upon exiting a student, schools have 10 consecutive school days to ensure that the student is receiving educational services. The sending school is held accountable for the student until the receiving school provides acceptable documentation. Generally, schools must have written permission from the parent/guardian or eligible student in order to release any information from a student's education record. However, FERPA allows schools to disclose those records, without consent, to other schools to which a student is transferring or to school officials with a legitimate educational interest (34 CFR §98.31).

Documentation received within the 10-day window:

- The sending school should code the student with the appropriate exit status and code.
- The Date of Exit should be the first school day after the last day of attendance.

Upon expiration of the 10-day window:

- The student should be exited with an Exit Status of "W" and Exit Code "50" (W50).
- The Date of Exit should be the first school day after the last day of attendance.

If documentation showing the continuance of educational services is received after the 10-day window:

- The sending school should update the W50 to the appropriate exit status and code.
- The Date of Exit should be the first school day after the last day of attendance.

Students with 10 school days of consecutive unlawful absences should be exited following the procedures outlined under Consecutive Absences.

## *Transferring Students*

### Transfer to a Public School in Maryland

Student records will be forwarded to the new receiving school when an official request for records is received. The request for records from the receiving school should be maintained with the student record as evidence of the transfer.

When a student transfers to another public school in Maryland, within or outside of the local school system, send the original student records in their entirety, including special education and discipline records. If a parent or guardian comes into the school to exit their child, the parent or guardian should be given, at a minimum, the completed SR7, a current report card, credit information, SR4 – Maryland State Graduation Requirements (if applicable), and any current test results and immunization records. Completion of SR7 is not sufficient for exiting a student from the school. Local school systems and schools must ensure continuance of educational services, and provide sufficient documentation, prior to exiting a student.

The sending school may maintain copies of the following:
- All SR cards;

## *Withdrawn Students*

## Withdrawals from Maryland Public Schools

For students who are age 18, and who wish to terminate formal education, the Statewide Educational Exit Interview form should be completed and maintained with the student record. The Statewide

Educational Exit Interview form provides sufficient documentation to withdraw a student from the school. The school should maintain original records.

# Digitizing Student Record Cards

## *Minimum Requirements for Digital Student Record Cards*

Digitized student record cards must include all the items contained on the SR cards, including certifying signatures. All documents provided with the student record must be included in the digital record. Signatures must be traced to the person making the change.

## *Electronic Signatures*

The MSDE has adopted the standard for electronic signatures set forth in Md. Code, Comm. Law Art. §21-101, *et seq.*

- An electronic signature is an "electronic sound, symbol, or process attached to or logically associated with the record and executed or adopted by a person with intent to sign the record" (Md. Code, Comm. Law Art. §21-101(i)).
- An electronic signature must be attributed to the person signing the record (Md. Comm. Law Art. §21-108(a)).
- The attribution can be shown by any means, including any security procedure applied to determine the person to whom the electronic signature is attributed.
- The attribution method can be as simple as a multi-factor authentication (such as codes or secure links sent via e-mail or text or challenge questions) or as complex as digital signatures that utilize a cryptographic operation.

# Electronic Student Record

## *Standard Demographic String*

Provided below is the standard demographic string used for all MSDE, Division of Assessment, Accountability, and Information Technology (DAAIT) data collections. The standard demographic string comprises the first part of all file formats. Fields specific for each data collection are included in the associated section of the Maryland Student Records System Manual, and in the specification reporting manuals for each collection.

Local school systems should follow these guidelines when defining digital elements of the student record card.

## Reporting Dates

The MSDE uses an eight-digit date format of a four-digit year, two-digit month, and two-digit day (YYYYMMDD) for all dates. For example: September 7, 2020 will be reported as 20200907.

## Supporting Documentation for Student Identifying Information

Use the Evidence of Birth document to complete all identifying information for the student. When reporting student level data, each local school system should consistently report the student name elements as they appear on the evidence of birth document.

The type of document presented as evidence of birth must be noted on the student's SR1. A physical copy of the document should be kept on file in the student's record. Documents are listed in order of preference. Official documents issued by governmental entities located in the United States of America should be used in place of documents issued by entities outside of the United States of America.

1. Birth Certificate
2. Passport/Visa
3. Physician's Certificate
4. Baptismal or Church Certification
5. Hospital Certificate
6. Parent's/Guardian's Affidavit
7. Birth Registration
8. Other, specify type of evidence of birth used

## *State Assigned Student Identification Number (SASID)*

The State Assigned Student Identification Number (SASID) is a unique number that is assigned to and remains with a student throughout his/her career in Maryland public schools. The SASID is defined and assigned by the MSDE through the Unique Student Identifier System (USIS). The local school system should consistently report the student name elements as they appear on the evidence of birth document.

# Student Attendance

Attendance records are collected annually by the MSDE. The information collected as part of the Attendance data collections is used to calculate a variety of measures including percent attendance, average daily attendance, graduation rate, and dropout rate. Refer to the Attendance Data Collection Manuals for the specific year for more detailed information.

This section includes data elements specific to the Attendance data collections, Entry and Exit status and codes, and descriptions for all specified data elements. The beginning of every file submitted to the MSDE for the Attendance data collections includes the appropriate standard demographic string.

The data elements listed here are collected for each student every school year. All data elements should be part of the student record. Appropriate documentation should be maintained to support use of specific codes.

## *Maintaining a Continuous Record*

Entry and Exit codes for each student should be continuous within the school year, and across years. There should be no unaccounted breaks in the student record. Entry and Exit codes should provide a complete record of a student's movement from the time the student enters any Maryland public school, through the time the student exits.

Students who are scheduled for enrollment, but do not report on the first day of school, are marked absent during the first month of the school year until they report for school. Continuous absences should be investigated. If it is determined that the student will not enter at the beginning of the school year, the student should be exited and the date of exit recorded in accordance with "Date of Exit" on page 53. By September 30th, all students on the roll who have not reported since the first day of school should be exited.

Summer transactions are used to reconcile student entry and exit activity during the summer. These records encompass the day following the last day of school in the prior school year, until the first day of school in the current school year. For instance, for a school system whose last day of school for SY 2019 was June 5, 2019, and first day of school for SY 2020 is September 8, 2019, local school systems should report all transactions between June 6, 2019 and September 8, 2019, as summer transactions. The MSDE requires local school systems use a standard exit date of July 1 for all summer transactions.

## *Attendance Items and Descriptions*

| Items | Description |
|---|---|
| Entry Status | The Entry Status that best defines the student's entry into the school, as defined in this manual. If a student has multiple entries, a record is required for each entry. |
| Entry Code | The Entry Code that best defines the student's entry into the school, as defined in this manual. If a student has multiple entries, a record is required for each entry. |
| Entry Date | The date of entry of the student, as defined in this manual. |

| Days Attending | The aggregate number of days the student was in attendance during the current school year, to the nearest half-day (implied decimal). If the student has multiple records (has attended more than one school during one year), there must be an attendance item for each period a student was enrolled in school. |
| Days Absent | The aggregate number of days the student was absent during the current school year, to the nearest half-day (implied decimal). If the student has multiple records, there must be an absence item for each record. Days absent for summer withdrawals must be zero. |
| Days Not Belonging | The aggregate number of days not belonging prior to entry and/or following withdrawal during the current school year, to the nearest half-day (implied decimal). If the student has multiple records, there must be a Days Not Belonging item for each record. Days Not Belonging for summer withdrawals must be zero. |

## *Compulsory Attendance*

Each child who resides in Maryland and is five years old or older, and under 18 years old, shall attend a public school regularly during the entire school year, except as otherwise provided in Annotated Code of Maryland, Education Article, §7–301.

## Reporting Attendance and Absences

Days attending and absent are reported to the MSDE to the nearest half-day. Days attending and absent are reported as 1.0 for a full-day of attendance, 0.5 for a half-day of attendance, or 0.0 for a day absent. Local school systems have the option of recording and maintaining attendance and absences in smaller increments, but not in larger increments.

## Reporting Attendance

A student is "present" or "attending" if the student is attending an instructional program approved by the State, local school system, and/or school. This means a student is physically on school grounds or is participating in instruction or instruction-related activities at an approved off-grounds location.

A student is reported for a full-day of attendance if the student is attending an instructional program approved by the State, local school system, and/or school for greater than half of the school day.

## Reporting a Partial Day of Attendance

A student is "present" or "attending" for a partial day of attendance if the student is attending an instructional program approved by the State, local school system, and/or school for 10% to 50% of the school day.

## Reporting Absences

A student is "absent" or "not attending" if the student is not physically present on school grounds and not participating in instruction or instruction-related activities at an approved off-grounds location for less than 10% of the school day.

Lawful absences are set forth in COMAR 13A.08.01.03. A local superintendent, school principal, or an individual authorized by the local superintendent or principal may excuse a student for a lawful absence. Unlawful absences are set forth in COMAR 13A.08.01.04.

## Lawful Cause of Absence

Absence from school, including absence for any portion of the day, of students who are presently enrolled in public schools, shall be considered lawful only under the conditions listed in COMAR 13A.08.01.03.

| Absence Code | Description |
|---|---|
| 01 | Death in the immediate family. The local school system shall determine what relationships constitute the immediate family. |
| 02 | Illness of the student. The principal shall require a physician's certificate from the parent/guardian of a student reported continuously absent for illness. |
| 04 | Court summons |
| 07 | Hazardous weather conditions. This means weather conditions which would endanger the health or safety of the student when in transit to and from school. |
| 08 | Work approved or sponsored by the school, the local school system, or the Maryland State Department of Education, accepted by the local superintendent of schools or the school |

| Absence Code | Description |
|---|---|
| | principal, or their designees, as reason for excusing students. |
| 09 | Observance of a religious holiday. |
| 10 | State emergency. |
| 13 | Other emergency or set of circumstances which, in the judgment of the superintendent or designee, constitutes a good and sufficient cause for absence from school. |
| 17 | Health Exclusion includes immunizations and other health related communicable or contagious diseases. |
| 18 | Suspension. |
| 19 | Lack of authorized transportation. This does not include students denied authorized transportation for disciplinary reasons. |
| 22 | Pregnancy and parenting related conditions. |

## *Unlawful Cause of Absence*

An absence, including absence for any portion of the day, for any reason other than those cited as lawful in COMAR 13A.08.01.03, is presumed unlawful and may constitute truancy. Local school systems may add specified criteria for unlawful absences to local board approved attendance policies.

| Absence Code | Description |
|---|---|
| 20 | Truancy. A truant is a student who is absent without lawful cause, as defined in COMAR 13A.08.01.04, for a school day or portion thereof. |
| 21 | Other unlawful absence. |

## Consecutive Absences

After 10 school days of consecutive unlawful absences, the student should be exited from the school with an Exit Status "W" and Exit Code "50."

## Habitual Truant

A student is a habitual truant if the student has been in membership in a school for 91 or more days in a school year and is unlawfully absent from school for a number of days or portion of days in excess of 20% of the school days within any marking period, semester, or year. A local school system has the prerogative of defining habitual truancy in a more, but not less, stringent manner.

## Chronically Absent

A student is chronically absent if the student has been in membership in a school for at least 10 days and is absent 10% or more of the school days while enrolled at that school. For example, a student who is enrolled in a school for 30 days, and who is absent three of those 30 days, is considered chronically absent. A student can be counted as chronically absent in multiple schools, within the State, in the same year.

# Entry Information

Entry Information is used to provide a continuous record of a student's status in Maryland public schools. Entry status provides the student's position in the local school system or school (e.g., First Entry, Transfer, Re-entry). Entry Code indicates the reason why the student is entering into the system. Entry Status and Entry Code must be used in conjunction. Both Entry Status and Entry Code used together provide a detailed account of the student's status at any given time. For example, "Entering by transfer from another school in the local school system during the current reporting period" is an Entry Status "Entry by Transfer" with an entry code "from another school in the local school system".

Provide the Entry Status and Entry Code that best describe the student's last school affiliation prior to his/her entry into the current school. Please note that specific Entry Codes may only be used with specific Entry Statuses.

## *Entry Statuses*

| Entry Status | Description |
|---|---|
| R – First Entry | Student is entering a Maryland public school for the first time in the current school year. |
| E – Entry by Transfer | Student is entering by transfer in the current school year. |
| N – Re-entry | Student is returning to school following a withdrawal in the current school year. |

## First Entry (R)

The use of Entry Status "R" is to identify a student who is entering a Maryland public school for the first time within the current school year. One Entry Status "R" is used to initiate the student's enrollment in a Maryland public school, followed by Entry Status "E" for subsequent transactions in the current school year. This status is used for prekindergarten and kindergarten students entering school for the first time (R01). This status is also used for students who were promoted from the previous grade and are continuing in the same school for the subsequent grade and year (R02). Students may have only one "R" record across local school systems within the current school year. Entry Status of "R" is only valid for Entry Codes "01," "02," "08," "09," and "10."

## Entry by Transfer (E) or (R)

The use of the Entry Status "E" is to identify a student entering by transfer from another Maryland public school within the current school year, or students who have previously been enrolled in a Maryland public school within the current school year. Students reported with an Entry Status "E" should have a prior "R" transaction in a Maryland public school in the current school year. Use the same Entry Codes for "E" as for "R," with the exception of Entry Codes "01," "02," "08," and "09."

## Re-entry (N)

The use of the Entry Status "N" is to identify a student returning to school following a withdrawal from a Maryland public school. Entry Status "N" must follow an Exit Status "W" after the first day of school within the current school year. Entry Status "N" may be used across local school systems. Entry Status

"R" should be used for students who withdrew in the previous school year, or over the summer. Entry status "N" is only valid for Entry Codes "06" and "07."

## *Entry Codes*

| R | 09 | Re-entry after voluntary withdrawal, by the student, from school during any reporting period prior to the current reporting period. |
| E or R | 10 | By transfer from another public school in the same LSS. |
| E or R | 13 | By transfer from a public school in Maryland. |

## *Date of Entry*

For students who enter on or before September 30th, the Date of Entry is the first day of school if they meet any of the following criteria:

- Student is continuing in the same school attended last school year (R02);
- Student is transferring from another school in the local school system because of promotion, administrative decision, or change of residence (E10);
- Student registered for enrollment prior to the opening of school; and
- Student registered and attended on the first day of school.

For all other students, the Date of Entry is the first day the student attends class in the school. Included are:

- Students with Enrollment Status "R" who were not enrolled in the local school system at the end of the last school year;
- Students who were not registered prior to the first day of school;
- Students who were enrolled on or after the second day of school; and
- All students with Entry Status "E" or "N."

# Exit Information

Exit Information is used to determine a student's status upon leaving a Maryland public school. Exit Status provides the student's position in the local school system or school (e.g., transfer, withdrawal, completer). Exit Code indicates the reason why the student is exiting the system. Exit Status and Exit Code must be used in conjunction. Both Exit Status and Exit Code, used together, provide a detailed account of the student's status upon exit from the system. For example, "dropout because of lack of interest" is an Exit Status "W" with an Exit Code "33."

Provide the Exit Status and Exit Code that best describes the student's reason for exiting the school. Please note that specific Exit Codes may only be used with specific Exit Statuses. This information should be documented on the Statewide Educational Exit Interview form.

## *Exit Status*

| Exit Status | Description |
|---|---|
| T – Transfer | Student transferred to another school or educational program. |
| W – Withdrawal | Student terminated formal education and is NO LONGER receiving educational services. |
| C – Completer | Student completed the requirements for a high school program. |

## Exit by Transfers (T)

The use of Transfer status/codes is based upon the expectation that transferred students are receiving educational services at another school or in an educational program. The sending school is held accountable until appropriate documentation can be presented.

## Exit by Withdrawal (W)

The use of Withdrawal status codes is based upon the expectation that withdrawn students are no longer receiving educational services. A dropout is defined as a student who, for any reason other than death, leaves school before graduation or the completion of a Maryland approved education program (including a special education program) and is not known to have enrolled in another school or State approved program during the current school year (COMAR 13A.08.01.07). Consequently, any student identified with an Exit Status "W" (excluding Exit Code "43"– Deceased) is considered a dropout.

## Completers (C)

A completer is defined as a student who completes the student's program of study at the high school level and satisfies the graduation requirements for a Maryland  High School Diploma or the requirements for a Maryland High School Certificate of Program Completion (COMAR 13A.08.01.07). Students who have completed all requirements for graduation should be exited using these codes. These codes should only be used with Exit Status "C." Students can only have one completion code in the course of their high school career.

### *Maryland High School Diploma (C60)*

To be awarded a Maryland High School Diploma, a student shall meet the requirements of COMAR 13A.03.02. More information on Graduation Requirements for Public High Schools in Maryland is available in the Overview and Frequently Asked Questions (MSDE, March 2018).

*Maryland High School Certificate of Program Completion (C62)*
The decision to award a student with disabilities a Maryland High School Certificate of Program Completion will not be made until after the beginning of the student's last year in high school, unless the student is participating in the Maryland Comprehensive Assessment Program Alternate Assessments (COMAR 13A.03.02.09E(3)). If a student with a disability exits a public school with a completion credential, and subsequently returns to school until the age the State guarantees a free, appropriate public education, the student should be coded with a W85 upon subsequent exit.

*Early College Admission and Early Admission to Approved Vocational, Technical, or Other Postsecondary School Program (C70)*
A student may receive a Maryland High School Diploma through acceptance in the early admission program under COMAR 13A.03.02.10, if:
1. The student is accepted for early admission to an accredited college, or an approved vocational, technical, or postsecondary school program before high school graduation;
2. All Maryland High School Assessments and student service requirements have been met;
3. A written request by the student and parent/guardian is made to and approved by the local superintendent of schools certifying the early admission acceptance;
4. The student's program for the first year of the postsecondary program is approved by the local superintendent of schools if the program is included toward the issuance of a diploma; and
5. At the conclusion of a full year of study, a written request for a Maryland High School Diploma is submitted to the superintendent together with a transcript or letter from the postsecondary program to the high school principal indicating that the student has successfully completed a year of postsecondary work.

Criteria 1 through 4 above must be satisfied before the student attends the postsecondary institution, usually at the end of their 11$^{th}$ grade year. The student should be exited as a T15, T16, or T17, as appropriate, to the postsecondary institution they are attending the summer following their 11$^{th}$ grade year.

At the conclusion of their full year of study, the student would be re-entered as a R15, R16, or R17 and exited as a C70 the day they receive their diploma. The C70 would be awarded in place of the C60 when the student completes the criteria for a C70. The student cannot be awarded the C70 prior to meeting criteria 5 above.

## *Date of Exit*

Record the Date of Exit based on the following criteria:
- For exits during the school year, the Date of Exit is the date of the first school day after the last day of attendance.
- For exits occurring during the summer, the Date of Exit is July 1$^{st}$.

Students who exited prior to the first day of school are considered summer exits, and should use July 1$^{st}$ as the Date of Exit. Refer to Reconciling Student Records, page 53, for additional information on summer exits.

### *Examples:*
1. If a student, on the roll in June of a regular term, notifies the school that he/she will not return the following fall, the Date of Exit is July 1$^{st}$.
2. If a student's withdrawal did not become known until after the regular fall term had begun, the recorded Date of Exit is July 1$^{st}$.
3. If a student notifies a school during the summer that he/she will not return for the fall term, the Date of Exit is July 1$^{st}$.
4. If a student does not report to school the first day of school, or thereafter, the Date of Exit is July 1$^{st}$.

## *Date of Completion*

Record the date on when it is officially recognized that the student has completed the high school program and is no longer required to attend school. If a student completes graduation requirements prior to the end of the school year (e.g., January), use a date when it is officially recognized that all requirements were completed. Students who satisfy the requirements included in this section prior to the end of the school year shall not be precluded from participation in local graduation ceremonies.

## *Exit Procedures*

Upon exiting a student, schools have 10 consecutive school days to ensure that the student is receiving educational services. The sending school is held accountable for the student until the receiving school provides acceptable documentation. See Required Documentation and Evidence Supporting Exits, page 54, for appropriate documentation supporting exits.

Documentation received within the 10-day window:
- The sending school should code the student with the appropriate Exit Status and Exit Code.
- The Date of Exit should be the first school day after the last day of attendance.

Upon expiration of the 10-day window:
- The student should be exited with an Exit Status of "W" and Exit Code "50".
- The Date of Exit should be the first school day after the last day of attendance.

If documentation showing the continuance of educational services is received after the 10-day window:
- The sending school should update the W50 to the appropriate Exit Status and Exit Code.
- The Date of Exit should be the first school day after the last day of attendance.

Students with 10 school days of consecutive unlawful absences should be exited following the procedures outlined under Consecutive Absences.

## *Reconciling Student Records*

Students who are scheduled for enrollment, but do not report on the first day of school, are marked absent during the first month of the school year until they report for class. Continuous absences should be investigated. If it is determined that the student will not enter at the beginning of the school year, he/she should be exited and the Date of Exit recorded in accordance with Date of Exit, page 53.

## *Required Documentation and Evidence Supporting Exits*

The use of Transfer status and codes are based upon the expectation that transferred students are receiving educational services at another school or in an educational program. The sending school is held accountable until appropriate documentation can be presented.

The use of Withdrawal status and codes are based upon the expectation that withdrawn students are NO LONGER receiving educational services.

Provided below are minimum expectations of appropriate documentation for each type of exit; this list is not exhaustive. School personnel should think critically concerning documentation provided to exit a student and should make an effort to document withdrawals. It is recommended that any documentation (or a copy of such documentation) provided to school personnel to exit a student should be retained in the student's record.

# Attendance Reporting for Specific Populations

## *Home and Hospital Students*

Attendance for students receiving home or hospital services (not home instruction pursuant to COMAR 13A.10.01) should be maintained using one of the following methods:

1. Maintain the student on the regular school roll and count the student present, except when a student is not available for home and hospital teaching, and then he/she is counted absent.
2. Establish a school for recordkeeping purposes called "Home and Hospital School" with a local school number assigned. Any child identified for home and hospital teaching, whether in special education or regular education, shall be withdrawn from the roll of the home school and transferred to the roll of the Home and Hospital School using Withdrawal Status "T" and Withdrawal Code "10". Count attendance the same as above.

## *Transfers to/from State Institutions and Programs*

The following is a list of State institutions that should be used with Entry Code and Exit Code "22." These are the only institutions that should be used with the Entry Code and Exit Code "22."

Maryland School for the Deaf and Maryland School for the Blind should be identified as nonpublic schools for the purposes of recording entry and exit information.

## List of State Institutions

- Alfred Noyes Children's Center
- Backbone Mountain Youth Center

- Job Corps
- Maryland National Guard FreeState ChalleNGe Academy

## *Home Instruction*

The local school system superintendent must verify that a child participating in a home instruction program is receiving regular, thorough instruction during the school year in the studies usually taught in the public schools to children of the same age (COMAR 13A.10.01).

A local school system may not impose additional requirements for home instruction programs other than those in COMAR 13A.10.01.

A parent or guardian who chooses to provide a home instruction program for his or her child shall initially complete the MSDE Home Instruction Notification Form (2017). The form must be submitted to the local superintendent at least 15 days before the beginning of a home instruction program.

The MSDE Home Instruction Notification Form (2017) includes the information listed below. The local school system may not require additional items. Additional information may be provided voluntarily by the parent or guardian, but cannot be required.

| ITEMS: MSDE Home Instruction Notification Form | ITEMS: MSDE Home Instruction Notification Form |
|---|---|
| Student's First Name | Parent/Guardian's First Name |
| Student's Middle Name | Parent/Guardian's Middle Name |
| Student's Last Name | Parent/Guardian's Last Name |
| Gender | Address including city, state, and zip code |
| Date of Birth | Optional method of contact (Email, phone, fax) |
| Current Grade | |

## Home Instruction Reporting

To facilitate the local school system's verification of students in home instruction, the local school system should identify each student who enters home instruction using the process below. This provides a record of all students the local school system must verify are receiving home instruction (COMAR 13A.10.01). Since home instruction is specific to the local school system in which the student resides, as students move across county boundaries, the records must reflect the transfer between local school systems. No additional information can be requested for home instruction students in the transfer process.

Entry Code and Exit Code "24" is used for students who transfer to and from home instruction within the same local school system. Students who are first entries to the local school system (out of state, kindergarten, other local school system) should be administratively entered into the local school system with the appropriate code and then transferred to home instruction using a T24. Parents or guardians of home instruction students should not be personally involved in this administrative entry and/or transfer process.

Entry requirements for home schooled students must be followed (see *Home Instruction Notification Form* above). No other entry requirements may be imposed.

*Example 1:* Student transfers to home schooling in a different local school system

| School System | Code | Description |
|:---:|:---:|:---|
| A | R24 | Student enters public school from home schooling. |
| A | T13 | Student transfers out of local school system. |
| B | E13 | Student enters school in receiving local school system. |
| B | T24 | Student transfers to home schooling in receiving local school system. |

*Example 2:* Student transfers to home schooling in another state

| School System | Code | Description |
|:---:|:---:|:---|
| A | T14 | Student transfers Out-of-State. |

# Adequacy of Documentation Substantiating Attendance

Documentation substantiating student attendance must be retained for three years. The type of documentation retained will differ between local school systems depending upon the method used to record attendance. In all cases, the records retained should include the source documents substantiating attendance.

Source documents are defined as those documents on which the classroom teacher, homeroom teacher, or other staff member initially records the student's attendance.

Regardless of the system used to capture attendance or absentees, all entries must be traced to the person entering or changing the information. Systems should contain sufficient information to determine who made the change, and verification of the change.

Adequate internal controls must exist to protect the integrity of the data entered into the automated system.

# September Attendance (September 30th Enrollment)

The Maryland State Department of Education (MSDE) is required to obtain records of all students enrolled in Maryland public schools. This information is used to determine State Aid eligible students and the distribution of State Aid to local school systems. The needs of the enrollment collections will be reviewed annually and data elements may be added or removed, as necessary. Refer to the September Attendance Procedures Manual, for the specific year, for more detailed information.

This section includes data elements specific to the September Attendance collection. The beginning of every file submitted to the MSDE for the September Attendance collection includes the standard demographic string.

The September Attendance reporting period includes the day following the last day of school in June of the previous school year until September 30th of the current school year.

Records for all students enrolled in the school system, on September 30th of the current school year, must be included on the September Attendance data file. A State Aid Eligibility Code must be reported for each record on the data file. For details on general financial aid to each local school system, see COMAR 13A.02.06.

## *Attendance*

Students scheduled for enrollment, who do not report for school during September, should be investigated and appropriate action taken. By September 30th, all students who have not attended school in September must be withdrawn from membership, unless documentation of sustained effort to return the student to school is available. Documentation requirements are included as part of the Maryland Student Records System Manual.

For students who remain on their home school membership rosters while attending either evening high or home and hospital instruction, any days on which the students are not available to receive their scheduled instruction must be recorded as an absence. Documentation of days attending and days absent must be available.

A student with a prolonged absence during September, who is not in attendance on September 30th, must be withdrawn unless school officials have determined a reason to keep the student on the roll. In the absence of supporting evidence, these students must be withdrawn; e.g., if court proceedings have been initiated for non-attendance, the student must remain on the roll. If it is determined that certain students must remain in membership, but are not to be included for State Aid Calculations, the record must be coded with the appropriate State Aid Eligibility code.

A student who is so severely ill or physically injured and unable to attend school or receive home and hospital instruction, and who has not received instruction from the first day of school through September 30th, cannot be counted on the September Attendance file. If the student cannot be educated by the system, the student cannot be counted for State Aid.

## *Grade/Age*

Local boards of education may adopt regulations permitting a four-year-old child, upon request by the parent/guardian, to be admitted to kindergarten if the local school system determines that the child demonstrates the capabilities warranting early admission. In addition, the regulations maintain the option for a parent/guardian to request a "Level of Maturity Waiver" for the local board to exempt from mandatory attendance for one year a kindergarten eligible child ([COMAR 13A.08.01.02](#)).

Grade takes precedence over age. A child who is five years old, as of September 1st, is considered to be in kindergarten unless documentation supporting a different grade placement is included in the student's record.

Include in grade level code "91" all students in both regular and special education placements who are at least five years of age and not yet six years of age on or before September 1st.

All students age 6 and above must be assigned a grade code of "01" through "12" if they do not meet the criteria for prekindergarten or kindergarten age/grade.

Grade equals the number of years the student has been in school after kindergarten, including the current year, adjusted by subtracting the number of times the student was not promoted and/or adding the number of times the student was promoted.

For prekindergarten students, grade is determined by the number of years until predicted kindergarten enrollment. For example, a child who is four years old, as of September 1st, is considered to be one level behind kindergarten and is in grade 92.

## *Immunizations*

To be eligible for State Aid, a student must have age-appropriate immunizations:

1. A parent/guardian shall provide evidence of age-appropriate immunizations and information shall be recorded on [MDH Form 896](#).
2. The school authorities shall certify the form with signature, title of signer, and date.
3. The school authorities may accept, in lieu of MDH Form 896, a printed or computer generated form that lists the following information:
   a. Student's name;
   b. Student's date of birth;
   c. Name of parent/guardian;
   d. Complete history of vaccines received with month, day, and year for each vaccine dose; and
   e. Signature and title of the physician and date, health official, school official, or day care provider providing the form.

## *Evening High School*

Students attending evening high programs, funded by federal or special funds, are not eligible for State Aid through Foundation funding.

## Students Age 21

For Foundation funds, students who received a diploma or who reached age 21, prior to the first day of school, are not eligible for State Aid.

Under COMAR 13A.02.06.02B(4) "Age 21" means that the student has not received a high school diploma and is not 21 years old on the first day of the school year.

## Students with Disabilities

Students with disabilities, who are enrolled in private schools by their parents/guardians and receiving services in public schools, can be included on the enrollment file, but must be coded ineligible for State Aid. Students with disabilities attending approved nonpublic special education programs (COMAR 13A.09.10), at public cost, should be included on the enrollment file and updated annually (see Nonpublic Placement Students below).

### Nonpublic Placement Students

Students in nonpublic placement schools, at public cost, must be reported by the local school system of residence in the September Attendance file with State Aid Eligibility Code "09". There must be valid entry and exit information for students attending nonpublic placement schools (LSS 24) every year. Even though students may continuously receive services across years, they must reapply for nonpublic services. Each student identified with a State Aid Eligibility Code of "09" must be coded in the following way:

- Entry Status, Entry Code, and Entry Date must be valid (not zero-filled);
- Exit Status must equal "T,";
- Exit Code must be in "15," "16," or "17":
   - o 15: Transfer to a nonpublic school in the same local school system
   - o 16: Transfer to a Maryland nonpublic school outside the local school system
   - o 17: Transfer to a United States nonpublic school or institution in another state or territory of the United States; and
- Exit Date must be valid (not zero-filled).

## Out-of-County

Students who are children of school staff who live in another Maryland local school system are eligible for State Aid.

Students who are also reported on the Out-of-County Living Arrangements or Schools Near County Lines form are counted by the receiving local school system.

## Out-of-State

Out-of-state students who are the children of school staff and who attend Maryland public schools are ineligible for State Aid due to non-residency, but should be included on the September Attendance file. For students who are residents of bordering states (excluding the Delmar school district in Wicomico

County) whose residence is located on the state border, residency is determined by where the parent/guardian or student pays personal income tax and/or registers to vote.

## *Concurrent September 30<sup>th</sup> Enrollment*

If the student is enrolled full-time at his/her regular day school, and also attends evening high or Saturday school, only the record for the day school is to be reported to the MSDE on the enrollment file. If the student is enrolled part-time at his/her regular day school, and also attends evening high or Saturday school, the student is reported as both part-time and evening high, with the appropriate number of courses identified.

For State Aid purposes, a student cannot be counted in excess of one FTE.

If a student remains on the home school membership roster, while attending evening high school, any day on which the student is not available to receive scheduled instruction must be recorded as an absence. As with regular day school, documentation of attendance and absence must be maintained in the student's record.

## *Students Who Do Not Report to School in August or September*

Students scheduled for enrollment, but who do not report for school during September, should be investigated, and appropriate action should be taken. By September 30<sup>th</sup>, all students who have not attended school in September must be exited from membership, unless documentation of sustained effort to return the student to school is available. Documentation requirements are included as part of the Maryland Student Records System Manual.

Students who are enrolled, but do not report on the first day of school, are marked absent during the first month of the school year until they report for class. This includes all of the following examples:

**Examples:**

1. Students who move to the next grade level within the same school by promotion;
2. Students who move to another school within the same local school system by promotion or transfer; or
3. Students who transfer to a local school system for the first time and enroll during the summer.

Once the student has been enrolled, and the student's records have been requested, that student becomes a member of the receiving school. If that student does not attend on the first day of school, and thereafter, he/she should be marked absent. Continuous absences should be investigated. If it is determined that the student will not enter, he/she should be exited and the date of exit recorded in accordance with Date of Exit (page 53). By September 30<sup>th</sup>, all students on the roll who have not reported since the first day of school should be exited with date of exit of July 1<sup>st</sup>.

## Student Discipline

Maryland State Board of Education regulations require each local school system to have in place student discipline policies and regulations with the goal of maintaining an environment of order, safety, and discipline necessary for effective learning. The policies and regulations at minimum shall:

1. Reflect a discipline philosophy based on the goals of fostering, teaching, and acknowledging positive behavior;
2. Be designed to keep students connected to school so that they may graduate college and career ready;
3. Describe the conduct that may lead to in-school and out-of-school suspension or expulsion;
4. Allow for discretion in imposing discipline;
5. Address the ways the educational and counseling needs of suspended students will be met; and
6. Explain why and how long-term suspensions or expulsions are last-resort options.

Each local school system shall use The Maryland Guidelines for a State Code of Discipline, as adopted by the State Board, to establish local codes of conduct and to develop new discipline-related policies. The offense codes and definitions in the Maryland Student Records System Manual are aligned with the Guidelines.

Discipline records consist of information which verifies and/or supports the suspension or expulsion of a student. At a minimum, this information must include the disciplinary action taken, a description of the student's behavior that resulted in the disciplinary action, school liaison information, educational services provided, and copies of all correspondence sent to the parents/guardians regarding the disciplinary action. Local school systems include additional information, but must provide for consistent conversion of local data when reporting to the State.

Discipline Records are part of the student record and must be maintained by the local school system in accordance with the State Minimum Standards for Retention of Student Records. Discipline records must be sent to other schools or school systems when a student transfers.

Other Disciplinary Information means information concerning actions other than suspension or expulsion taken to correct the student's behavior. Such information includes the disciplinary action taken (i.e., office referral, detention, etc.) and a description of the student's behavior that resulted in the disciplinary action.

The format and storage of Other Disciplinary Information is at the discretion of the local school system. It can be stored in "raw" form or transferred onto a "log" and be maintained with the general student record or in a separate folder. Regardless of how the information is stored, the information is a part of the student record and must be sent to other schools or school systems when a student transfers, unless there has been a review and change to the record. Local school systems are encouraged to consider a judicious review of the appropriateness of maintaining Other Disciplinary Information when a student moves from elementary to middle school or from middle to high school.

Listed below are the data elements and definitions for information collected for each school year relating to student discipline. All data elements should be a part of the student record. For a complete listing of data elements and definitions required for each discipline data submission, refer to the Student Discipline and Health Related Exclusions Data Collection Manual for the academic year.

Each suspension and expulsion must include the following:

- Offense Code;
- Offense Date;
- Length of Removal;
- Indication of Physical Injury with a "Y" or "N";
- Disposition Code; and
- Type of Educational Services Provided.

## Types of Discipline

The MSDE collects information on the following types of discipline:

1. **Suspensions** – The removal of a student from the student's current educational program for at least half a day for disciplinary purposes. Suspensions may be in-school or out-of-school.
   a. *In-School Suspension* – The removal within the school building of a student from the student's current educational program for up to but not more than 10 school days in a school year for disciplinary reasons by the school principal (COMAR 13A.08.01.11B(4)).
   b. *Out-of-School Suspension* – The removal of a student from the student's current educational program for disciplinary purposes to another setting (e.g., home, behavior center). Out-of-school suspensions may be short-term, long-term, or extended.
      i. *Short-Term Out-of-School Suspension* – The removal of a student from school for up to but not more than 3 school days for disciplinary reasons by the principal (COMAR 13A.08.01.11B(9)).

2. **Expulsions** – The exclusion of a student from the student's regular school program for more than 45 school days, which only may occur under the circumstances in COMAR 13A.08.01.11B(2).

## Health-Related Exclusions

The school's authority for these exclusions lies in Maryland's health regulations. Non-compliance with required immunizations is cited in COMAR 10.06.04.03A, while conditions presenting a risk to others (communicable diseases) are covered in COMAR 10.06.01.06. Examples of communicable diseases may include active, untreated tuberculosis or measles. In cases of communicable diseases, the local health department's health officer makes the determination to prevent the spread of communicable disease or to control a reportable disease, and the school principal has the role of enforcing the exclusion that the health department has initiated.

## Attendance

[Md. Code, Ed. Art., §7-305](#) prohibits a student from being out-of-school suspended or expelled from school solely for attendance-related offenses. As a result, offense codes 101-103 are only valid when reported for an in-school suspension, with disposition code 960.

## *Date of Offense*

## *Length of Removal*

The number of days the student was removed from the current placement (school in which the student was enrolled at the time of the incident). In-school suspensions cannot exceed 10 school days in a school year.

# State Minimum Standards for Retention of Student Records

Because of the need to retrieve records for individuals, who at some time have been enrolled in Maryland public schools, minimum standards for record retention have been established.

Guidelines and standards for the retention and disposition of student records maintained according to this Manual shall be those adopted in the Records Retention and Disposition Manual for Public School Systems of Maryland, current edition, and subsequent revisions, except as indicated herein.

Individual student records not required or specifically regulated by other State or local regulations shall be destroyed when they no longer serve legitimate education purposes, subject to the following exceptions:

1. The local school system or educational institution may not destroy any student record if there is an outstanding request to inspect and review them under FERPA and COMAR 13A.08.02.13;
2. Explanations placed in the education record under COMAR 13A.08.02.15 shall be maintained as provided in FERPA and COMAR 13A.08.02.15D; and
3. The record of disclosure required under FERPA and COMAR 13A.08.02.20 shall be maintained for as long as the education record to which it pertains is maintained.

## *Records Retention Schedule for Records Prescribed by the MSDE*

The record retention time frames contained here pertain to the record, regardless of the format in which it is maintained (i.e. paper, electronic). It is within the discretion of the local school system to determine the format in which to maintain the record. If the local school system maintains a paper record and then choses to retain the record by scanning and disposing of the paper record, the local school system must provide for that process in its record retention and disposition schedule. The schedule should state that the paper records are maintained for a specified period of time or until transferred to electronic storage according to the Maryland State Archives standards. The standards include ensuring that the electronic version is readable and kept in a format that will be accessible throughout the life cycle of the record and maintained in a non-proprietary open format that does not require specialized software to access it. If the records were maintained originally in electronic format and have never existed as paper records, that electronic format must also meet the Maryland State Archive Standards.

Permanent records may be transferred to the Maryland State Archives when no longer needed for business purposes. Any records under dispute must be retained until the dispute is resolved.

Contact the Maryland State Archives for further information on Records Management.
