Maryland College and Career Ready Standards Framework English Language Arts/Literacy

Introduction

The Code of Maryland Regulations (COMAR) 13A.04.14.01 Reading and English Language Arts Instructional Programs for Grades Prekindergarten – 12 states that, “each local education agency shall provide in public schools an instructional program in English language arts/literacy each year for all students in grades prekindergarten – 5; provide in public schools an instructional program in English language arts/literacy each year for all students in grades 6—8; offer an English language arts/literacy program in grades 9 – 12 which enables students to meet graduation requirements and to select English language arts/literacy electives including English Language Arts/Literacy Transition Courses.”

State Frameworks are developed by the Maryland State Department of Education (MSDE) to support local education agencies in providing high-quality instructional programs in English Language Arts/Literacy. State Frameworks are defined as supporting documents and provide guidance for implementing Maryland College and Career Readiness Standards in English Language Arts/Literacy which are reviewed and adopted by the Maryland State Board of Education. State Frameworks also provide consistency in learning expectations for students in English Language Arts/Literacy programs across the twenty-four local education agencies as local curriculum is developed and adopted using these documents as a foundation.

MSDE shall update the State Frameworks in English Language Arts/Literacy in the manner and time the State Superintendent of Schools determines is necessary to ensure alignment with best-in-class, research-based practices. Tenure and stability of State Frameworks affords local education agencies the necessary time to procure supporting instructional materials, provide professional development, and to measure student growth within the program. Educators, practitioners, and experts who participate in writing workgroups for State Frameworks represent the diversity of stakeholders across Maryland. State Frameworks in English Language Arts/Literacy, Prekindergarten – Grade 12 were developed, reviewed, and revised by teams of Maryland educators and practitioners, including local education agency content curriculum specialists, classroom teachers, accessibility staff, and academic researchers and experts in close collaboration with MSDE.

The Maryland College and Career Ready English Language Arts/Literacy Frameworks were released in June of 2012.
Maryland College and Career Ready Standards Framework Writing Grades 6-8

In June 2010, the Maryland State Board of Education adopted the Maryland College and Career Ready Standards (MCCRS). These Frameworks are the result of a year-long effort by Maryland educators to unpack the MCCR standards and identify the essential skills and knowledge that a student would need in order to master the grade specific standards. Since the MCCR standards did not include Pre-K, Maryland educators created standards and developed the essential skills and knowledge to serve these students. The Frameworks are not intended to convey the order in which the standards should be taught nor the length of time to devote to a unit of study.

The MCCRS Frameworks in English Language Arts integrate standards from different strands. Throughout the Maryland Essential Skills and Knowledge, references such as See MCCR Standard 6 SL4 (“See MCCR Standards, Grade 6, Speaking & Listening, Standard 4”) are provided.

The following list shows the abbreviations used when referencing standards from the MCCRS:

- RL – Reading Literature
- RI – Reading Informational Text
- RF – Reading Foundational Skills
- W – Writing
- L – Language
- SL – Speaking and Listening

The MCCRS Frameworks also integrate standards from the Maryland School Library Media Curriculum and the Maryland Technology Literacy Standards. These standards are indicated by the abbreviations MD SLM 6-8 _____ (“Maryland School Library Media, grades 6-8, Standard, Indicator, objective”) and TL (“Technology Literacy Standards” followed by Standard, Indicator, objective).
