## Introduction

---

The Interagency Rates Committee (IRC) is composed of representatives from the Department of Budget and Management, Department of Health, Department of Human Services, Department of Juvenile Services, Governor's Office for Children, and the Maryland State Department of Education. The IRC is charged with developing and operating a rate process for residential child care and child placement agency programs that is fair, equitable and predictable. The IRC has developed and adopted a rate methodology that can be applied equitably across a broad range of residential child care and child placement agency programs based on peer program comparisons.

Per COMAR 14.31.04.05G, "The Committee shall publish, annually, a list of all providers and approved rates and shall issue quarterly supplements with changes and additions. Child placement agencies shall be designated as preferred or nonpreferred in the listings, in accordance with the Committee's determination."
