SUBJECT: SY 2023-2024 English Language Arts, Mathematics, and Science Assessment Results

Purpose

The Maryland Comprehensive Assessment Program (MCAP) English language arts (ELA), mathematics, and science assessment results for the 2023-2024 school year are provided for your information.

Background

The Every Student Succeeds Act (ESSA) requires states to assess students in English Language Arts (ELA) and mathematics annually for students in grades 3-8 and once in high school. ESSA also requires states to assess students in science once in each grade span (3-5, 6-8 and high school). The 2023-2024 school year marks the third full administration of the MCAP ELA and mathematics after a shortened assessment in the early fall of the 2021-2022 school year. The MCAP Maryland Integrated Science Assessment (MISA) for grades 5 and 8 was first administered in the 2017-2018 school year and has continued to be administered until the present, except for a pandemic-induced pause in SY 2019-2020 and a shortened administration in the fall of 2021.

Executive Summary

This presentation summarizes the SY 2023-2024 ELA, mathematics, and science assessment results, including student group disaggregations and Local Education Agency (LEA) summary data. Overall, results show only slight changes in SY 2023-2024 as compared to the prior year.

- There was a slight increase in student proficiency in ELA and mathematics for all tests combined. In SY 2023-2024, 48.4% of Maryland students were proficient in ELA, up from 47.9% in SY 2022-2023. The proficiency rate in mathematics was 24.1%, as compared to 23.3% in the prior year.
- Student proficiency in ELA and mathematics varied by test. Student proficiency in ELA ranged from 44.2% in ELA 5 to 55.3% in ELA 10. Variation was more pronounced for student proficiency in mathematics, from 7% in Math 8 to 40% in Math 3.
- There were large variations in ELA and mathematics proficiency across LEAs. ELA proficiency varied from 27.7% to 69.4% across LEAs. Mathematics proficiency ranged from 9.8% to 41.1%.

- Changes in ELA and mathematics proficiency from SY 2022-2023 to SY 2023-2024 varied by LEA. The LEAs with the largest changes in ELA proficiency were Prince George’s County, with a 2.6 percentage-point decline, and Talbot County, with a 2.9 percentage-point increase. The largest changes in mathematics proficiency occurred in Caroline and Calvert counties, where proficiency increased by 3.9 percentage points.
- Large proficiency gaps among student groups persisted in both ELA and mathematics. ELA proficiency for all tests combined ranged from 31.8% for Hispanic/Latino students to 74.8% for Asian Students. Mathematics proficiency varied from 11.9% for Hispanic/Latino students to 54.6% for Asian students. Multilingual students, economically disadvantaged students, and students with disabilities had much lower proficiency rates as compared to the overall student population.
- For most student groups, proficiency in ELA and mathematics in SY 2023-2024 for all tests combined was similar to proficiency levels in the prior year. ELA proficiency increased by 0.6 to 1.7 percentage points for all student groups, except for Hispanic/Latino, Asian, and multilingual students, which experienced slight declines. No student group experienced a decline in mathematics proficiency.
- Student proficiency in science grades 5 and 8 declined in SY 2023-2024 as compared to the prior school year and it was below proficiency levels for SY 2021-2022. The decline was more pronounced in science 5 and it affected all LEAs and student groups.

Literacy Supports for LEAs

The Maryland State Department of Education is working to improve student outcomes in Literacy through:

- Launching access to **Statewide Literacy Professional Learning** in partnership with State University of New York (SUNY) and AIM Institute for Learning and Research to increase teacher and administrator knowledge of the science of reading and structured literacy and codesigned **Statewide Literacy Coaching Professional Learning** to assist with the implementation of high-quality instructional material in elementary classrooms.
- Convening the ELA **Standards and Frameworks Validation Committee (SFVC)** that will ensure the alignment of standards, frameworks, and curricular resources for grades PreK – 8, and high school ELA courses. The committee works with the **Literacy Advisory Panel, the HQIM Expert Advisory group, College and Career Readiness Pathways team** and other state and national workgroups to ensure alignment of all initiatives including **statewide models for acceleration, and course sequencing.**
- Hosting **ELA Learning Labs** to support LEAs with creating and sustaining systems and structures for ongoing data review, goal setting, and action planning with a priority focus on supporting students who struggle with acquiring reading skills and best practices around adolescent literacy.
- **Conducting monthly ELA Supervisor Collaboratives & Check In Calls:** Focus topics have included MCAP Data Analysis, sharing and replicating best local, state, and national practices, parent/community engagement and advocacy, et al.
- Supporting development of **LEA Comprehensive Literacy Plans** and leveraging **Expert Review Team Elementary ELA classroom visits** to provide additional data points towards implementation of the plans
- Developing more caregiver tools including a series of videos and a new **Parent Guides for Student Success for Maryland.**

- Convening a **Mathematics Standards and Frameworks Validation Committee** (SFVC) that will ensure the alignment of standards, frameworks, and curricular resources for grades PreK – 8, and high school math courses. The committee will work collaboratively with the **Launch Years Task Force, HQIM Expert Advisory group, College and Career Readiness Pathways team** and other state and national workgroups to ensure alignment of all initiatives including **statewide models for acceleration, course sequencing, and integration of Financial Literacy**.
- Hosting **Math Learning Labs** to support LEAs with creating and sustaining systems and structures for ongoing data review, goal setting, and action planning with a priority focus on transitional grades and historically marginalized student groups.
- Conducting **Monthly Math Supervisor Collaboratives & Check In Calls**: Focus topics have included MCAP Data Analysis, sharing and replicating best local, state, and national practices, math instructional culture leadership and advocacy, et al.
- Supporting development of **LEA Math Comprehensive Math Plans** and leveraging **Expert Review Team Elementary math classroom visits** to provide additional data points towards implementation of the plans

Science Supports for LEAs

The Maryland State Department of Education is working to provide science education support to improve student outcomes through:

- Convening **Science Supervisor Collaboratives**, focusing on MCAP Data Analysis, Data-Driven Action Planning, Master Schedule Collaborative Guidance that leverage collaboration to support districts in replicating best local, state, and national practices, et al.
- Facilitating **Statewide Science Professional Learning** for educators and administrators including MCAP Item Development Simulations, Assessment Alignment Coaching, Science Learning Labs, Professional Learning Coaching and Collaboration, and asynchronous professional learning modules.
- Launching **Science Learning Walks** to continue the innovative LEA practice-sharing initiated by Learning Labs.
- Utilizing Science Learning Walk feedback to guide the development of a **MSDE Science Instructional Walk-Through Tool** to support school and district leaders in ensuring students receive high-quality science instruction.
- Providing timely updates and opportunities for feedback on the **High-Quality Instructional Materials Framework**, which will continue through the development of the accompanying **High-Quality Instructional Materials Rubric**.
